# Introduction

The final release of the EVS 2017 includes data and documentation of altogether 39 participating countries. To make the data accessible in a user-friendly way, the methodological guidelines, method reports, and variable reports – including harmonization reports – are provided.

The following integrated and national data sets are provided for the fifth EVS wave:

## EVS 2017 Integrated datasets

- – EVS 2017 Integrated Dataset, ZA7500, Data file Version 5.0.0
- – EVS 2017 Integrated dataset - Matrix Design Data, ZA7502, Data file Version 2.0.0
- – EVS 2017 Integrated dataset – Sensitive Data, ZA7501, Data file Version 2.0.0

## EVS 2017 Individual country data files

In addition, data collected within the framework of the EVS 2017 are made available as individual national datasets due to their specific sample designs:

- – EVS 2017 Finland - Swedish minority,  ZA7549, Data file Version 1.0.0
- – EVS 2017 Greece, ZA7546, Data file Version 1.0.0
- – EVS 2017 Romania - Hungarian minority, ZA7550, Data file Version 1.0.0

Separate method reports are provided for these data sets. Detailed information on harmonization/standardization of data concerning variables on religion, political party preference, occupation, education, income, and region is included in the harmonization reports of the EVS 2017 Integrated Dataset, ZA7500, Data file Version 5.0.0.

**Content**

The report at hand offers a description of the integrated datasets on the variable level. The Variable Documentation contains frequency counts by country (sample) for the variables.

The report is structured into six sections:

- Section 1 provides brief information on the EVS 2017.

- Section 2 refers to the structure of the integrated datasets and mixed-mode and matrix design. It further describes the standardization and harmonization efforts made

- Section 3 explains the data checks performed.

- Section 4 summarizes the anonymization measures applied.

- Section 5 gives a short explanation of the Variable Documentation.

- Section 6 contains the Variable Documentation created for the integrated datasets.

## Access to EVS data and documentation

The data and documentation of the EVS 2017 integrated and individual datasets are accessible free of charge via the GESIS Data Archive's retrieval systems.

GESIS Search contains the study descriptions, providing substantial methodological information on the data as well as version history and errata. It supports direct access to EVS data and documentation for download. Data downloads are possible after registration.

### Citation requirements

Publications based on EVS data should acknowledge this by means of bibliographic citations as listed in the Method Report, item Citation Requirements. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in the footnotes or the reference section of publications.

### Usage requirement

To provide funding agencies with essential information about the use of EVS data and to facilitate the exchange of information about the EVS, users of EVS data are kindly asked to send bibliographic citations and/or electronic copies of each completed report, article, conference paper or thesis abstract using EVS data to the EVS at Tilburg University at evsrepository@uvt.nl. For more information, see https://europeanvaluesstudy.eu/education-dissemination-publications/.

### Disclaimer

EVS, GESIS, and the producers bear no responsibility for the use of EVS data or interpretations or inferences based on these uses. EVS, GESIS, and the producers accept no liability for indirect, consequential or incidental damages or losses arising from the use of the data collection or the unavailability of or break in access to the service for whatever reason.

# 1    European Values Study 2017

As previous waves conducted in 1981, 1990, 1999, and 2008, the fifth EVS wave maintains a persistent focus on a broad range of values. Questions concerning family, work, religious, political and societal values are highly comparable across waves and regions, making EVS suitable for research aimed at studying trends over time.

The new wave has seen a strengthening of the methodological standards (see the EVS 2017 Methodological Guidelines and the EVS 2017 Method Report), partly thanks to the participation in the SERISS project (https://seriss.eu/). Table 1 gives an overview of all countries included in EVS waves.

*Table 1:    Participating countries in European Values Study 1981-2017*

| Country/Region | 2017 | 2008 | 1999 | 1990 | 1981 |

*1981 only Germany (West)
** Provided as an individual national dataset (ZA7546, ZA7549, ZA7550).

Table 2 provides summarized information about the fieldwork period, mode of data collection, and languages fielded for the 36 countries included in the integrated datasets of the final release. More than 70.000 persons, selected through random sampling, were interviewed personally (face-to-face) and via Web and postal interviews.

*Table 2:     Fieldwork period, mode, and languages used*

| Country | Fieldwork period | Mode of data collection | Languages fielded |
|---|---|---|---|
| Albania | 24-02-2018 - 24-06-2018 | PAPI | Albanian, English |
| Armenia | 20-02-2018 - 30-04-2018 | PAPI | Armenian |
| Austria | 08-01-2018 - 14-05-2018 | CAPI | German |
| Azerbaijan | 10-11-2018 - 23-12-2018 | PAPI | Azerbaijani, Russian |
| Bosnia and Herzegovina | 03-02-2019 - 14-06-2019 | CAPI | Bosnian, Croatian, Serbian |

|---------|-------------------------|------|--------------------|

# 2 Dataset structure and variable definition

As for previous EVS waves, the structure of the integrated datasets and the metadata of the variables follow as far as possible the structure of the English Master Questionnaire (CAPI).

**Naming conventions**

Although variables names are not harmonized across waves, all standard variables are built in the scheme "xNNN" (e.g. v130). The naming and sequence of variables follow the variable names given for the questions in the English Master Questionnaire (CAPI).

Exceptions are constructed, country-specific, and administrative variables (see section 2.2 Administrative and ID variables). The harmonized variables generally have an intuitive suffix (see section 2.3 International standards and EVS coding frames).

**Missing values and definition**

In general, the missing values are standardized across EVS waves. For all variables, a set of negative missing values is defined; for EVS 2017, additional design specific missing values are necessary (values: -1 to -10). Table 3 displays the missing values used in the integrated dataset.

*Table 3:     Missing value definition*

| Type of missing Value | In Master Questionnaire, field questionnaires, Standard syntax | In Integrated Dataset | Variable label |
|---|---|---|---|
| General missing values | 8/88/888/8888/88888 | -1 | don't know |
| | 9/99/999/9999/99999 | -2 | no answer* |
| | 7/77/777/7777/77777 | -3 | not applicable** |
| | - | -4 | item not included*** |
| | - | -5 | other missings |
| CAWI / MAIL | | -8 | follow-up non response |
| | | -9 | no follow-up |
| | | -10 | multiple answers (Mail) |
| Question specific missing values | 6/66 | 6/66 | does not apply to me |
| | 6 | 6 | never had a paid job |
| | 0 | 0 | no formal education |
| | 7 | 7 | not allowed to vote |
| | 3 | 3 | other answers (code if volunteered only) |

\* No answer is also used for: refusal, wild codes if not possible to correct; system missing values if not possible to reconstruct; impossible high/low values; anonymization measures on case level.

\*\* Not applicable is used for: missing values which result from filter questions; missing values in administrative variables.

\*\*\* Item not included:  i.e. question/item not included in the country's field questionnaire; not provided by the national team; not included for anonymization reasons.

**Dummy variables**

Dummy variables are generated for multiple-response questions. E.g. a question with four answer categories in an item battery has four dummy variables as final data. In general, a value "1" means that the respondent chooses the particular category as an answer (mentioned, yes, …). In the case of a value "2", the respondent did not choose the particular category as an answer (not mentioned, no, …).
Dummy variables are also created for "None of these", "Don't know", or "No answer", referring to the whole question. Flag variables flag inconsistencies between choosing the category 'none of these' and other mentioned items of a battery.

**Time variables**

The time variables in Table 4 are created for question Q108 'Time of interview'. They provide information on the start time and end time of the interview as well as the duration of the interview.

*Table 4:      Time of interview*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| v278c_r | start time interview (Q108) (constructed) | Constructed variable on the basis of v278a (time of interview: start hour (Q108)) and v278b (time of interview: start minute (Q108)). Numeric format: hh,mm (v278a*100 + v278b)/100. |
| v279c_r | end time interview (Q108) (constructed) | Constructed variable on the basis of v279a (time of interview: end hour (Q108)) and v278b (time of interview: end minute (Q108)). Numeric format: hh,mm (v279a*100 + v279b)/100. |
| v279d_r | duration of interview in minutes (constructed) (Q109) | Constructed variable on the basis of v278a, v278b, v279a, v279b in a numeric values format. |

## 2.1 Integrated datasets: Mixed-mode and matrix design

---

***For detailed information: EVS 2017 Guide to the Mixed-mode Approach and Matrix Design***

The document describes in detail the concept behind the composition of both EVS datasets; the ***EVS Integrated dataset*** and the ***EVS Integrated dataset – Matrix Design***. In particular, it outlines the main characteristics of the implementation of the mixed-mode and matrix design strategy in the EVS 2017. The strategy was adopted by Switzerland, Iceland, Latvia, Netherlands, Germany, Finland, and Denmark.

*Beware!* It is recommended to pay attention to the mode structure when using EVS 2017 data, especially when comparing values across countries and/or across waves. Our preliminary checks did not show large differences in measurement between the different design elements. However, we recommend testing several scenarios to verify that the results are stable and/or to use the appropriate 'mm_*' variable(s) (see Table 7) as control variables in multivariate models.

---

**Brief description of the dataset structure based on EVS 2017 Guide to the Mixed-mode Approach and Matrix Design**

In EVS, the ***main mode*** of data collection is ***interviewer-administered***. Face-to-face interviews are administered by a trained interviewer with the support of a computer (CAPI mode), tablet (TAPI mode) or paper version (PAPI mode). CAPI and TAPI interviews are aggregated under the label CAPI. Additionally, in special cases, interviewers conducted interviews over the phone (CATI mode).

In EVS 2017, to increase coverage and response rates, countries had the possibility of implementing a parallel ***self-administered questionnaire***, with respondents assigned to either a Web survey (CAWI mode) or a postal paper-and-pencil survey (Mail mode).

***Mixed-mode*** refers to the parallel implementation of different modes of data collection between interviewer-administrated and self-administrated conditions in the realization of the survey in one particular country. There are roughly two situations:

-   Interviewer-administered mode as the main mode: applied by ***all*** countries
-   Self-administered mode as a parallel mixed-mode: additionally applied by ***seven*** countries.

The mixed-mode strategy was adopted, in different forms, by Switzerland, Iceland, Latvia, Netherlands, Germany, Finland, and Denmark. An overview of the modes used is provided in Table 5.

*Table 5:      Overview of modes used by countries in EVS 2017*

The **matrix design** consists of splitting the questionnaire into several coherent blocks of questions. Instead of getting the whole questionnaire, each respondent got only some of these blocks. The concept was adopted by Switzerland, Germany, Iceland, and the Netherlands.

Two approaches were used: a country administered a **first-round survey** only or implemented a "**mini-panel**", returning to the respondents of the matrix survey and asking them to fill in a second (follow-up) round, asking questions not administered during the first wave.

1. *Switzerland, Iceland, Germany, Finland, Denmark and Latvia*

   Six "mixed-mode" countries administered the survey based on the full-length EVS questionnaire, that is that they administered the whole EVS questionnaire in one go.

   - **Denmark, Finland and Latvia**: the full-length questionnaire was the *only* design implemented;
   - **Switzerland, Germany and Iceland**: the full-length questionnaire condition was used in *parallel* to the matrix design;
   - **Switzerland**: the *two versions* of the full-length questionnaire were used, one resembling the order of questions of the EVS questionnaire and one with a modified order of questions.

2. ***Switzerland, Germany, Iceland and the Netherlands***

   Four countries employed a matrix design experiment, splitting the questionnaire into variable blocks and assigning them to matrix groups.
   - ***Switzerland, Iceland and Netherlands***: administered two rounds, matrix first round and a follow-up round;
   - ***Germany*** administered a matrix first round only.

3. ***Germany***

   One country additionally implemented a ***responsive design experiment***. The matrix design survey employed a responsive design in two phases performing experimental research on contact mode and incentive.

An overview of the design adopted by each country can be found in Table 6.

*Table 6:    Overview of mixed-mode and matrix design implementation by country*

|    |             | Full-length questionnaire (original order) | Full -length questionnaire (modified order) | Matrix (1st round) | Matrix (Follow up) | Responsive design |
|----|-------------|:---:|:---:|:---:|:---:|:---:|
| CH | Switzerland | X | X | X | X |   |
| DE | Germany     | X |   | X |   | X |
| DK | Denmark     | X |   |   |   |   |
| FI | Finland     | X |   |   |   |   |
| IS | Iceland     | X |   | X | X |   |
| LV | Latvia      | X |   |   |   |   |
| NL | Netherlands |   |   | X | X |   |

Cases are distributed into the two integrated datasets according to the characteristics of the survey design they were part of.

Variable ***"mm_select_sample"*** (see Tables 7 and 8) has been designed with the specific purpose of helping data users select sub-samples. It summarizes most of the mixed-mode characteristics and allows distinguishing seven different subsamples, combining information from the mixed-mode and matrix design variables (mm_*), and the behaviour of respondents.

– **EVS 2017 Integrated Dataset, ZA7500, Data file Version 5.0.0**

   This dataset contains data from 59,438 respondents and 36 countries. These are all the respondents from the interviewer-administered mode CAPI, PAPI and CATI (see Table 5), and the **full cases** from the self-administered CAWI and MAIL mixed-mode and matrix design mode (see Table 7).

   The use of this dataset is recommended for substantive research involving EVS data.

*Table 7:　　EVS 2017 Integrated Dataset: mm_select_sample by country*

| Country | *Total country sample** | 1 interviewer-administered (CAPI PAPI CATI) | 2 self-administered full-length questionnaire: original question order (CAWI Mail) | 3 self-administered full-length questionnaire: modified question order (CAWI Mail) | 4 self-administered matrix: with follow-up (CAWI Mail) | *Total cases in IDS* |
|---|---|---|---|---|---|---|
| CH | *3,658* | 673 | 403 | 437 | 1661 | *3,174* |
| DE | *5,456* | 1494 | 676 | | | *2,170* |

| LV | *1,335* | 1,070 | 265 | | | |
| NL | *2,739* | 686 | | | 1718 | *2,404* |

*can be obtained by merging the two integrated datasets

–　**EVS 2017 Integrated dataset - Matrix Design Data, ZA7502, Data file Version 2.0.0**

This dataset includes data from 10,598 respondents and the four countries (DE IS CH NL) that used the matrix design (see table 8). Both cases from the full-length design and from the matrix design are included. As for the latter, all respondents who filled in the matrix design are incorporated, ignoring the distinction between those who filled in only the first survey and those who also filled in the follow-up. Finally, the dataset comprises also break-off cases (cases with 'no answer' to more than 50% of the questionnaire items).

Due to its experimental nature, the use of this dataset is mostly recommended for methodological research.

*Table 8:　　EVS 2017 Integrated Dataset-Matrix Design Data: mm_select_sample by country*

| c_abrv | *Total country sample** | 2 self-administered full-length questionnaire: original question order (CAWI Mail) | 3 self-administered full-length questionnaire: modified question order (CAWI Mail) | 4 self-administered matrix: with follow-up (CAWI Mail) | 5 self-administered matrix: follow-up non response (CAWI Mail) | 6 self-administered matrix: first survey only (CAWI Mail - DE) | 7 break-off (less than 50% valid answers) | *Total cases in matrix design data* |
|---|---|---|---|---|---|---|---|---|
| CH | *3,658* | 403 | 437 | 1661 | 432 | | 54 | *2,987* |

<div align="right">*can be obtained by merging the two integrated datasets</div>

The following Table 9 gives an overview of the mixed-mode, matrix design, and responsive design protocol variables created to implement the different concepts in the integrated datasets. A detailed description of the variables is given in the document "EVS 2017 Guide to the Mixed-mode Approach and Matrix Design".

*Table 9:      Overview of mixed-mode, matrix design, responsive design variables*

| Variable name | Variable label |
|---------------|----------------|
| mode | mode of data collection |
| mm_select_sample | FLAG MIXED-MODE: subsamples on mode variables |
| mm_mixed_mode | mixed-mode/matrix design |
| mm_mode_fu | mode of data collection (follow-up) |
| mm_matrix_group | matrix attribution (group/variable bloc) |
| mm_original_matrix_design_IS | original matrix design assigned (Iceland) |
| mm_original_matrix_group_IS | original matrix group assigned (Iceland) |
| mm_fw_start_fu | year/month of start-fieldwork (matrix design) |
| mm_fw_end_fu | year/month of end-fieldwork (matrix design) |
| mm_year_fu | survey year (follow-up) |
| mr_detailed_mode_DE | survey mode in detail CAPI/CAWI/MAIL sample (Germany) |
| mr_contact_mode_DE | contact mode CAWI/MAIL (Germany) |
| mr_incentive_DE | incentive in Euros CAPI/CAWI/MAIL (Germany) |
| fduplicate | FLAG duplication of cases: merging integrated/matrix design da- |
| fmissings | flag: complete/incomplete case |
| mm_v277_fu | date of interview (Q107) (follow-up) |
| mm_v278a_fu | time of interview: start hour (Q108) (follow-up) |
| mm_v278b_fu | time of interview: start minute (Q108) (follow-up) |
| mm_v279a_fu | time of interview: end hour (Q108) (follow-up) |
| mm_v279b_fu | time of interview: end minute (Q108) (follow-up) |

## 2.2 Administrative and ID variables

Administrative variables are used mainly to identify datasets concerning version, wave, and country (see Table 10). Besides ID variables 'caseno' and 'id_cocas' uniquely identifying the respondent in the national and integrated data, variable 'v282' identifies interviewers conducting CAPI/PAPI interviews. There are different kinds of administrative variables:
- Technical variables for identifying the dataset or cases
- Cumulation specific variables combining the information of different variables
- Special compound variables for the creation of customized data files

*Table 10:    Overview of administrative variables*

| Variable name | Variable label |
|---|---|
| studyno | GESIS study number |
| studynoc | GESIS study number (national datasets) |
| version | GESIS archive version |
| versionc | GESIS archive version (national datasets) |
| doi | Digital Object Identifier |
| id_cocas | unified respondent number |
| caseno | original respondent number |
| year | survey year |
| fw_start | year/month of start-fieldwork |
| fw_end | year/month of end-fieldwork |
| country | country code (ISO 3166-1 numeric code) |
| cntry_y | country and year of FW (ISO 3166-1 numeric code) |
| c_abrv | country abbreviation (ISO 3166-1 Alpha-2 code) |
| mode | mode of data collection |
| fmissings | FLAG: complete/incomplete case |
| v281a | language of interview (ISO 639-1 Alpha code) (Q110) |
| v281a_r | language of interview (ISO 3166-1 numeric 3-digit) (Q110) |
| v282 | interviewer number (Q111) |

## Identification variables

Each record in the data file contains two identification variables:
- caseno: 'Original respondent number'.
- id_cocas: 'Unified respondent number.'
    - o structured as a 13 digit code: YYYY (year of wave), CCC (country ISO 3166-1), NNNNNN (caseno).
    - o For countries that used the mixed-mode approach, the ID of respondents who answered the CAWI/Mail survey is structured as follows: YYYY (year of wave), CCC (country ISO 3166-1), 01 (or 03 for 'Mail' in CH), NNNN (caseno).

## Variables with country codes

Table 11 gives an overview of the ISO 3166-1 numeric and alphanumeric country codes used in EVS 2017.

*Table 11:    Country codes (ISO 3166-1)*

| Country/Region | Country abbreviation ISO 3166-1 alpha-2 | ISO 3166-1 (3 digits) |
|---|---|---|
| Albania | AL | 8 |
| Azerbaijan | AZ | 31 |
| Austria | AT | 40 |
| Armenia | AM | 51 |
| Bosnia and Herzegovina | BA | 70 |
| Bulgaria | BG | 100 |
| Belarus | BY | 112 |
| Croatia | HR | 191 |
| Czechia | CZ | 203 |
| Denmark | DK | 208 |
| Estonia | EE | 233 |
| Finland | FI | 246 |
| France | FR | 250 |
| Georgia | GE | 268 |

| | | |
|---|---|---|
| Germany | DE | 276 |
| Great Britain | GB | 826 |
| Hungary | HU | 348 |
| Iceland | IS | 352 |
| Italy | IT | 380 |
| Latvia | LV | 428 |
| Lithuania | LT | 440 |
| Montenegro | ME | 499 |
| Netherlands | NL | 528 |
| North Macedonia | MK | 807 |
| Norway | NO | 578 |
| Poland | PL | 616 |
| Portugal | PT | 620 |
| Romania | RO | 642 |
| Russia | RU | 643 |
| Serbia | RS | 688 |
| Slovakia | SK | 703 |
| Slovenia | SI | 705 |
| Spain | ES | 724 |
| Sweden | SE | 752 |
| Switzerland | CH | 756 |
| Ukraine | UA | 804 |

The overview in Table 12 lists the variables for which country identifiers (ISO 3166-1 numeric or alphanumeric) were added to values. Information about the composition of values is given as well.

*Table 12:     Variables with ISO 3166-1 country codes*

| Variable | Variable Label | Composition of values:  (cc=country code) |
|---|---|---|
| country | country code (ISO 3166-1 numeric code) | CC-ISO 3166-1 (3 digits) |
| cntry_y | country and year of FW (ISO 3166-1 numeric code) | CC-ISO (3 digits) + YEAR (2 digits) |
| c_abrv | country abbreviation (ISO 3166-1 Alpha-2 code) | CC- ISO 3166-1 (alpha-2) |
| id_cocas | unified respondent number | YYYY + CC-ISO (3 digits) + NNNNNN |
| v52_cs | which religious denomination do you belong to (Q13a) (ISO 3166-1, country-specific) | CC-ISO (3 digits) + VALUE (2 digits) |
| v174_cs v175_cs | which political party appeals to you most (Q49) (ISO 3166-1, country-specific) is there another party that appeals to you (Q49a) (ISO 3166-1, country-specific) | CC-ISO (3 digits) + VALUE (2 digits) |
| v228b | respondents country of birth (ISO 3166-1/3 alpha code) (Q66) | CC-ISO 3166-1 (alpha-2) and 3166-3 (alpha-4) |
| v228b_r | respondents country of birth (ISO 3166-1 numeric code) (Q66) | CC-ISO 3166-1 (3 digits) |
| v231b | fathers country of birth (ISO 3166-1/3 alpha code) (Q69) | CC-ISO 3166-1 (alpha-2) and 3166-3 (alpha-4) |
| v231b_r | fathers country of birth (ISO 3166-1 numeric code) (Q69) | CC-ISO 3166-1 (3 digits) |
| v233b | mothers country of birth (ISO 3166-1/3 Alpha code) (Q71) | CC-ISO 3166-1 (alpha-2) and 3166-3 (alpha-4) |
| v233b_r | mothers country of birth (ISO 3166-1 numeric code) (Q71) | CC-ISO 3166-1 (3 digits) |
| v251b | spouse/partners country of birth (ISO 3166-1/3 Alpha code) (Q88a) | CC-ISO 3166-1 (alpha-2) and 3166-3 (alpha-4) |
| v251b_r | spouse/partners country of birth (ISO 3166-1 numeric code) (Q88a) | CC-ISO 3166-1 (3 digits) |
| v243_cs | educational level respondent: country-specific, ISO 3166-1 (Q81) | CC- ISO (3 digits) + VALUE (2 digits) |
| v252_cs | educational level spouse/partner: country-specific, ISO 3166-1 (Q89) | CC- ISO (3 digits) + VALUE (2 digits) |
| v262_cs | educational level father: country-specific, ISO 3166-1 | CC- ISO (3 digits) + VALUE (2 digits) |

| | (Q99) | |
|---|---|---|
| v263_cs | educational level mother: country-specific, ISO 3166-1 (Q100) | CC- ISO (3 digits) + VALUE (2 digits) |
| v275c_N1 | region where interview was conducted: ISO_NUTS-1 code (Q105) | CC- ISO (3 digits) + VALUE (2 digits) |
| v275c_N2 | region where interview was conducted: ISO_NUTS-2 code (Q105) | CC- ISO (3 digits) + VALUE (4 digits) |

## 2.3 International standards and EVS coding frames

International standards and EVS coding frames are used for harmonization/standardization of data concerning variables on religion, political party preference, occupation, education, income, and region. Tables 13 to 19 give an overview of the harmonized substantive and socio-demographic variables. More detailed information is provided in the respective appendices of the variable report.

In addition to the harmonized variables, the source variables are provided in the data. These standardized country-specific variables are indicated with a respective suffix "_cs". They contain the country identifier (ISO 3166-1) and the given order of country-specific categories in the field questionnaires. References to the respective harmonized variables are added as notes in the variable documentation.

### 2.3.1    Religion

**For more information: Variable Report App A1: Religious denomination**
It describes the standards used and gives insights into the harmonization process, including the mapping of country-specific sources with the target variables. In addition to the English translations, the labels for the source variables are provided in the original language. An overview of variables on Religion is given in Table 13.

*Table 13:      Religious denomination*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| v52_cs | which religious denomination do you belong to (Q13a) (standardized) | Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific categories (religious denominations). This variable has been harmonized into v52 (see EVS 2017 Variable Report,  App A1). |
| v52 | which religious denomination do you belong to (Q13a) (harmonized) | Harmonized variable: country-specific categories have been recoded according to the common dictionary. For country-specific variable, see v52_cs (see EVS 2017 Variable Report, App A1). |

### 2.3.2    Political parties/preference

**For more information: Variable Report App A2: Left-Right positioning of political parties**
It describes the standards used and gives insights into the harmonization process, including the mapping of country-specific source and target variables. In addition to the English translations, the labels for the source variables are provided in the original language. An overview of variables on Political parties/preferences is given in Table 14.

*Table 14:    Political parties/preferences*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| v174_cs | which political party appeals to you most (Q49) | Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific categories (political parties). This variable has been harmonized into v174_LR (left-right scale variable) (see EVS 2017 Variable Report, App A2). |
| v174_lr | political party: appeals to you most: left/right scale (Q49) | Harmonized variable: country-specific categories have been recoded according to the placement of national political parties on a left-right scale as delivered by country. For country-specific variable, see v174_cs (see EVS 2017 Variable Report, App A2). |
| v175_cs | is there another party that appeals to you (Q49a) | Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific categories (political parties). This variable has been harmonized into v175_LR (left-right scale variable) (see EVS 2017 Variable Report, App A2). |
| v175_lr | political party: another appeals to you: left/right scale (Q49a) | Harmonized variable: country-specific categories have been recoded according to the placement of national political parties on a left-right scale as delivered by country. For country-specific variable, see v175_cs (see EVS 2017 Variable Report, App A2). |

### 2.3.3    Educational level

> ***For information on the concepts, see Methodological Guidelines, App A1: Classifications.***
> ***For information on the variables, see Variable Report App A3 Education/App A4 Mapping Education***
> It describes the standards used and gives insights into the harmonization process, including the mapping of country-specific source and target variables. In addition to the English translations, the labels for the source variables are provided in the original language. The second appendix provides information about the mapping of variable '_edulvlb' and further harmonized classifications. An overview of the educational variables included in the EVS 2017 is given in Table 15.

*Table 15:    Educational level*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| v243_cs | educational level respondent: country-specific, ISO 3166-1 (Q81) | Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific educational categories. Variable has been harmonized according to ESS-eduvlbl (see EVS 2017 Variable Report, App A3). |
| v243_edulvlb | educational level respondent: ESS-edulvlb coding (Q81) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App A3). |
| v243_edulvlb_2 | educational level respondent: ESS-edulvlb coding two digits (Q81) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v243_edulvlb_1 | educational level respondent: ESS-edulvlb coding one digit (Q81) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v243_ISCED_3 | educational level respondent: ISCED- | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v243_cs (see |

| | code three digit (Q81) | EVS 2017 Variable Report, App A3 and A4). |
|---|---|---|
| v243_ISCED_2 | educational level respondent: ISCED-code two digit (Q81) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Option A is obtained by cutting the 3rd digit from the 3-digit variables and indicates the ISCED level plus the information about the vocational/general orientation of the program. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App. A3 and A4). |
| v243_ISCED_2b | educational level respondent: ISCED-code two digit, second option (Q81) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Option B is obtained by cutting the 2nd digit from the 3-digit variable and indicates the ISCED level plus whether there is access to the next higher level or not. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App. A3 and A4). |
| v243_ISCED_1 | educational level respondent: ISCED-code one digit (Q81) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v243_EISCED | educational level respondent: ES-ISCED coding (Q81) | Harmonized variable: highest educational level achieved – based on the ESS-edulvlb classification scheme. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v243_ISCED97 | educational level respondent: ISCED97-code one digit (Q81) | Harmonized variable: highest educational level achieved using the ISCED 1997 classification scheme. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v243_8cat | educational level respondent: 8 categories (Q81) | Harmonized variable: highest educational level achieved using the EVS/WVS agreed classification for the trend files. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v243_r | educational level respondent: recoded (Q81) | Harmonized variable: highest educational level achieved – based on the ESS-edulvlb classification scheme. For country-specific variable, see v243_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v252_cs | educational level spouse/partner: country-specific, ISO 3166-1 (Q89) | Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific educational categories. Variable has been harmonized according to ESS-eduvlbl (see EVS 2017 Variable Report, App A3). |
| v252_edulvlb | educational level spouse/partner: ESS-edulvlb coding (Q89) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3). |
| v252_edulvlb_2 | educational level spouse/partner: ESS-edulvlb coding two digits (Q89) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v252_edulvlb_1 | educational level spouse/partner: ESS-edulvlb coding one digit (Q89) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v252_ISCED_3 | educational level spouse/partner: ISCED-code three-digit (Q89) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v252_ISCED_2 | educational level spouse/partner: ISCED-code two digit (Q89) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Option A is obtained by cutting the 3rd digit from the 3-digit variables and indicates the ISCED level plus the information about the vocational/general orientation of the program. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |

| v252_ISCED_2b | educational level spouse/partner: ISCED-code two-digit, second option (Q89) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Option B is obtained by cutting the 2nd digit from the 3-digit variable and indicates the ISCED level plus whether there is access to the next higher level or not. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |
|---|---|---|
| v252_ISCED_1 | educational level spouse/partner: ISCED-code one digit (Q89) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v252_EISCED | educational level spouse/partner: ES-ISCED coding (Q89) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v252_ISCED97 | educational level spouse/partner: ISCED97-code one digit (Q89) | Harmonized variable: highest educational level achieved using the ISCED 1997 classification scheme. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4).Educational level. |
| v252_8cat | educational level spouse/partner: 8 categories (Q89) | Harmonized variable: highest educational level achieved using the EVS/WVS agreed classification for the trend files. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v252_r | educational level spouse/partner: recoded (Q89) | Harmonized variable: highest educational level achieved – based on the ESS-edulvlb classification scheme. For country-specific variable, see v252_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v262_cs | educational level father: country-specific, ISO 3166-1 (Q99) | Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific educational categories. Variable has been harmonized according to ESS-eduvlbl (see EVS 2017 Variable Report, App A3). |
| v262_edulvlb | educational level father: ESS-edulvlb coding (Q99) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3). |
| v262_edulvlb_2 | educational level father: ESS-edulvlb coding two digits (Q99) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v262_edulvlb_1 | educational level father: ESS-edulvlb coding one digit (Q99) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v262_ISCED_3 | educational level father: ISCED-code three digit (Q99) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v262_ISCED_2 | educational level father: ISCED-code two digit (Q99) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Option A is obtained by cutting the 3rd digit from the 3-digit variables and indicates the ISCED level plus the information about the vocational/general orientation of the program. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v262_ISCED_2b | educational level father: ISCED-code two digit, second option (Q99) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Option B is obtained by cutting the 2nd digit from the 3-digit variable and indicates the ISCED level plus whether there is access to the next higher level or not. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v262_ISCED_1 | educational level father: ISCED-code one digit (Q99) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |

| v262_EISCED | educational level father: ES-ISCED coding (Q99) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |
|---|---|---|
| v262_ISCED97 | educational level father: ISCED97-code one digit (Q99) | Harmonized variable: highest educational level achieved using the ISCED 1997 classification scheme. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4).Educational level. |
| v262_8cat | educational level father: 8 categories (Q99) | Harmonized variable: highest educational level achieved using the EVS/WVS agreed classification for the trend files. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v262_r | educational level father: recoded (Q99) | Harmonized variable: highest educational level achieved – based on the ESS-edulvlb classification scheme. For country-specific variable, see v262_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_cs | educational level mother: country-specific, ISO 3166-1 (Q100) | Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific educational categories. Variable has been harmonized according to ESS-eduvlbl (see EVS 2017 Variable Report, App A3). |
| v263_edulvlb | educational level mother: ESS-edulvlb coding (Q100) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme.  For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_edulvlb_2 | educational level mother: ESS-edulvlb coding two digits (Q100) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme.  For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_edulvlb_1 | educational level mother: ESS-edulvlb coding one digit (Q100) | Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_ISCED_3 | educational level mother: ISCED-code three digit (Q100) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_ISCED_2 | educational level mother: ISCED-code two digit (Q100) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Option A is obtained by cutting the 3rd digit from the 3-digit variables and indicates the ISCED level plus the information about the vocational/general orientation of the program. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_ISCED_2b | educational level mother: ISCED-code two digit, second option (Q100) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Option B is obtained by cutting the 2nd digit from the 3-digit variable and indicates the ISCED level plus whether there is access to the next higher level or not. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_ISCED_1 | educational level mother: ISCED-code one digit (Q100) | Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_EISCED | educational level mother: ES-ISCED coding (Q100) | Harmonized variable: highest educational level achieved based on the ESS-edulvlb classification scheme. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
| v263_ISCED97 | educational level mother: ISCED97-code one digit (Q100) | Harmonized variable: highest educational level achieved using the ISCED 1997 classification scheme. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4).Educational level. |
| v263_8cat | educational level | Harmonized variable: highest educational level achieved using the |

| | mother: 8 categories (Q100) | EVS/WVS agreed classification for the trend files. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |
|---|---|---|
| v263_r | educational level mother: recoded (Q100) | Harmonized variable: highest educational level achieved – based on the ESS-edulvlb classification scheme. For country-specific variable, see v263_cs (see EVS 2017 Variable Report, App A3 and A4). |

### 2.3.4　Job/Profession

*ISCO08 4 digits:* International Standard Classification of Occupations
*Source(s):* https://www.ilo.org/public/english/bureau/stat/isco/isco08/index.htm

*Date:* 21-06-2016 (Last update according to site ILO)

*See also:* EVS 2017 Methodological Guidelines App A: Official Classifications

*Table 16:　Job/Profession*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| v246_ISCO_2 | kind of job respondent - 2 digit ISCO08 code (Q84a) | Recoded (2-digit ISCO08) Source: v246_ISCO_4 (not included) |
| v246_SIOPS | kind of job respondent - 2 digit ISCO08 code (Q84a) | See point 3.5 |
| v246_ISEI | kind of job respondent - SIOPS08 code (Q84a) | See point 3.5 |
| v246_egp | kind of job respondent - EGP11 (Q84a) | See point 3.5 |
| v246_ESeC | kind of job respondent - ISEI08 code (Q84a) | See point 3.5 |
| v255_ISCO_2 | kind of job spouse/partner - 2 digit ISCO08 code (Q92a) | Recoded (2-digit ISCO08) Source: v255_ISCO_4 (not included) |
| v255_SIOPS | kind of job spouse/partner - 2 digit ISCO08 code (Q92a) | See point 3.5 |
| v255_ISEI | kind of job spouse/partner -SIOPS08 code (Q92a) | See point 3.5 |
| v255_egp | kind of job spouse/respondent - EGP11 (Q92a) | See point 3.5 |
| v255_ESeC | kind of job spouse/partner - ISEI08 code (Q92a) | See point 3.5 |

### 2.3.5　Variables of socio-economic status

**SIOPS: Standard International Occupational Prestige Scale (Treiman, 1977)**

- Source classification: Ganzeboom, H. B. G. & Treiman, D. J. (1996), Internationally Comparable Measures of Occupational Status for the 1988 International Standard Classification of Occupations. Social Science Research, 25, 201-239.

- Source syntax to compute classification: Ganzeboom, Harry B.G.; Treiman, Donald J., "International Stratification and Mobility File: Conversion Tools." Amsterdam: Department of Social Research Methodology, http://www.harryganzeboom.nl/ismf/index.htm. Date last revision: 5 October 2019.

- See variables: v246_SIOPS, v255_SIOPS

**ISEI: International Socio-Economic Index of Occupational Status (Ganzeboom et al., 1992)**

- Source classification: Ganzeboom, H. B. G. & Treiman, D. J. (1996), Internationally Comparable Measures of Occupational Status for the 1988 International Standard Classification of Occupations. Social Science Research, 25, 201-239.

- Source syntax to compute classification: Ganzeboom, Harry B.G.; Treiman, Donald J., "International Stratification and Mobility File: Conversion Tools." Amsterdam: Department of Social Research Methodology, http://www.harryganzeboom.nl/ismf/index.htm. Date last revision: 5 October 2019.

- See variables: v246_ISEI, v255_ISEI

### ESeC: European Socio-economic Classification (Harrison et al., 2006)

- Source classification: Harrison, E., & Rose, D. (2006). The European socio-economic classification (ESeC) user guide. Colchester: Institute for Social and Economic Research, University of Essex.

- Source syntax to compute classification:
  https://www.iser.essex.ac.uk/archives/esec/matrices-and-syntax
  Date: 27-09-2006 (last update syntax).

- See variables: v246_ESeC, v255_ESeC

### EGP: EGP class scheme (Erikson/Goldthorpe/Portocarero, 1979)

- *Source classification:* Ganzeboom, H. B. G. & Treiman, D. J. (1996), Internationally Comparable Measures of Occupational Status for the 1988 International Standard Classification of Occupations. Social Science Research, 25, 201-239.

- Source syntax to compute classification: Ganzeboom, Harry B.G.; Treiman, Donald J., "International Stratification and Mobility File: Conversion Tools." Amsterdam: Department of Social Research Methodology, http://www.harryganzeboom.nl/ismf/index.htm. Date last revision: 5 October 2019.

- See variables: v246_egp, v255_egp

### 2.3.6    Income

**Variable: v261 "households total net income (Q98) (standardized)"**

– In EVS 2017, deciles of the net household income distribution were used [Approximate WEEKLY, Approximate MONTHLY, Approximate ANNUAL].

> **For more information: Variable Report App B: Income**
> App B describes the decile approach used and provides country-specific source information, including the variable in the original language, the sources used for deriving deciles, and the exchange rates to Euro.

**Variable: v261_ppp "household monthly net income (x1000), corrected for ppp in euros (Q98)"**

– For each country not adopting the Euro as currency, the national currency is first converted into Dollars and then into Euros. It allowed retrieving the exchange rate for most countries from the same source, namely the IMF Global Economic Monitor (GEM). This source offered the exchange rate from national currency to dollars for all EVS countries, except for Serbia and Bosnia and Herzegovina. The IMF GEM also allowed us to convert Dollars to Euro, while the exchange rates of Serbia and Bosnia and Herzegovina come from the World Bank.

–   Once calculated the conversion rate national country/Euro, the income categories have been corrected for the purchasing power parity (PPP). PPP is derived from the IMF World Economic Outlook Database (October 2019 Edition). For Montenegro, the World Bank statistics 2019 were used. The year(s) in which the data were collected form(s) the basis for calculating the PPP rates. The mean exchange rate was calculated over the survey period for all countries.

–   A linear income variable has been constructed, taking the country-specific categories' mid-points corrected for PPP. For the first category, the mid-point is the upper bound minus half the range of the second category, e.g., if (1) <500 Euro and (2) 500-800 Euro, then the mid-point of the first category is: 500-(800-500)/2=350 Euro. For the mid-point of the lastest category, the same range for the last and the penultimate interval was assumed, e.g., if (one but last category) 7.500-10.000 Euro and (last category) >10.000 Euro, then the mid-point of the last category will be: 10.000+(2.500/2)=11.250 Euro. The mid-points have been finally divided by 1000.

Sources:
–   Global Economic Monitor (GEM) from IMF
    https://www.imf.org/external/pubs/ft/weo/2019/01/weodata/download.aspx
    World Economic Outlook Database October 2019 from IMF
    https://www.imf.org/external/datamapper/PPPEX@WEO/OEMDC/ADVEC/WEOWORLD/ALB/HRV
    World Bank
    https://databank.worldbank.org/reports.aspx?source=2&series=PA.NUS.PPP&country

**Variable: v261_r "household total net income (Q98) (income level)"**

–   Each country's income variable has been recoded according to its distribution into three categories, each containing approximately one-third of the country's sample.

> **For more information: Variable Report App B1: Income Terciles**
> It describes the procedure used to create the reduced version of the EVS income variable in three categories and provides the mapping for each country.

### 2.3.7    Region of interview

The data includes regional information on NUTS 1 and NUTS 2 levels for the variable 'region where the interview was conducted'. Additionally to the variables applying the Nomenclature of Territorial Units for Statistics (in string format), variables applying an EVS specific coding frame (numeric NUTS variables using the coding scheme of EVS 2008) are included.

*Source:* https://ec.europa.eu/eurostat/web/nuts/background

> **For more information: Variable Report App C NUTS level 1-2-3**
> It provides a brief description of the standard used and gives information on regional codes created for countries where no official NUTS code is available.

*Table 17:     NUTS variables*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| v275b_N2 | region where interview was conducted: NUTS-2 code (Q105) | Alphanumeric NUTS-1 code (2016) or country-specific regional code resembling NUTS as much as possible (see EVS 2017 Variable Report, App C). Source variable: v275b_N3 (not included for data protection reasons) |
| v275b_N1 | region where interview was conducted: NUTS-1 code (Q105) | Alphanumeric NUTS-1 code (2016) or country-specific regional code resembling NUTS as much as possible (see EVS 2017 Variable Report, App C). Source variable: v275b_N3 (not included for data protection reasons) |
| v275c_N2 | region where interview was conducted: ISO_NUTS-2 code (Q105) | EVS specific coding frame (applying the coding scheme of EVS 2008). Source variable: v275b_N3 (not included for data protection reasons) |
| v275c_N1 | region where interview was conducted: ISO_NUTS-1 code (Q105) | EVS specific coding frame (applying the coding scheme of EVS 2008). Source variable: v275b_N3 (not included for data protection reasons) |

### 2.3.8    Country of birth variables

International Organization for Standardization - Codes for the representation of names of countries and their subdivisions

*Source:* http://www.iso.org/iso/country_codes
Date: 21-07-2013
*For more information: EVS 2017 Methodological Guidelines, App.  A: Official Classifications*

*Table 18:     Country of birth - ISO 3166-1, alpha-2 and numeric*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| v228b | respondents country of birth (ISO 3166-1/3 alpha code) (Q66) | Verbatim recorded answers standardized according to ISO 3166-1 alpha-2 code. Former countries are coded under ISO 3166-3 alpha-4 code. |
| v228b_r | respondents country of birth (ISO 3166-1 numeric code) (Q66) | Verbatim recorded answers standardized according to ISO 3166-1 numeric code. |
| v231b | fathers country of birth (ISO 3166-1/3 Alpha code) (Q69) | Verbatim recorded answers standardized according to ISO 3166-1 alpha-2 code. Former countries are coded under ISO 3166-3 alpha-4 code. |
| v231b_r | fathers country of birth (ISO 3166-1 numeric code) (Q69) | Verbatim recorded answers standardized according to ISO 3166-1 numeric code. |
| v233b | mothers country of birth (ISO 3166-1 numeric code) (Q69) | Verbatim recorded answers standardized according to ISO 3166-1 alpha-2 code. Former countries are coded under ISO 3166-3 alpha-4 code. |
| v233b_r | mothers country of birth (ISO 3166-1 numeric code) (Q69) | Verbatim recorded answers standardized according to ISO 3166-1 numeric code. |
| v251b | spouse/partners country of birth (ISO 3166-1/3 Alpha code) (Q88a) | Verbatim recorded answers standardized according to ISO 3166-1 alpha-2 code. Former countries are coded under ISO 3166-3 alpha-4 code. |
| v251b_r | spouse/partners country of birth (ISO 3166-1 numeric code) (Q88a) | Verbatim recorded answers standardized according to ISO 3166-1 numeric code. |

For data protection reasons, few single countries have been aggregated to coarser sub-regions according to the geographic regions of the M49 standard.
Source: https://unstats.un.org/unsd/methodology/m49/

### 2.3.9   Language

*For more information: EVS 2017 Methodological Guidelines, App. A: Official Classifications*

*Table 19:     Language - ISO 639-1*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| v281a | language of interview (ISO 639-1 Alpha code) (Q110) | Verbatim recorded answers standardized according to ISO 639-1 alpha-2 code. |
| v281a_r | language of interview (WVS/EVS numeric code 3-digit) (Q110) | Verbatim recorded answers standardized according to EVS/WVS special numeric code |

## 2.4 Weights

> **For more information: EVS 2017: Weighting Data**
> It outlines the procedure used to compute the weight variables and provides information on the source of the population statistics and adaptations required in each country. The provided weight variables are listed in Table 20.

*Table 20:     Weights*

| Variable name | Variable label | Summarized notes |
|---|---|---|
| gweight | Calibration weights: with educational level | This weight is aimed at adjusting some socio-demographic characteristics in the sample population to the distribution of the target population. It has been computed using the marginal distribution of Age, Sex, Education and Region. |
| gweight_no_edu | Calibration weights: without educational level | This weight is aimed at adjusting some socio-demographic characteristics in the sample population to the distribution of the target population. It has been computed using the marginal distribution of Age, Sex and Region. This weight is provided for researchers that reject the assumption of consistent measuring of educational levels across countries[1] and/or assume that non-responses have the same distribution across educational levels. |

---

[1] Ortmanns, V., & Schneider, S. L. (2016, December). Can we assess representativeness of cross-national surveys using the education variable?. In Survey Research Methods (Vol. 10, No. 3, pp. 189-210).

| dweight | Design Weight | This weight is meant to adjust the individual's probability of being included in the sample. It considers the variation in individual selection probabilities in sample designs with multiple stages. It has been computed as the inverse of the product of the selection probabilities at each sampling stage and rescaled then to the sample size so that their mean is 1, and their sum equals the sample size. In a simple random sample, the design weight is 1.<br>Design weights are provided for Azerbaijan, Croatia, Poland, Russia and Germany.<br>In a simple random sample, every respondent has the same selection probability (n/N) and hence the same design weight, namely, 1. |
|---|---|---|
| pweight | Population size weights | Population size weights have been computed using the formula: target population size/[sample size*10000]. When comparing countries in statistical analysis, these weights are meant to bring the calibration weights to a common denominator. The weights to be used are the product of the calibration weights of choice and population weights. |
| age_r_weight | CALIBRATION variable:<br>Age in categories | It replicates age_r3 (unless country-specific deviations were needed, see EVS 2017: Weighting Data). It contains also imputed values for those respondents with missing values on the source variable (age_r3). |
| v225_weight | CALIBRATION variable:<br>Gender | It replicates v225. It contains also imputed values for those respondents with missing values on the source variable (v225).<br>Calibration variable. |
| v243_r_weight | CALIBRATION variable:<br>Educational level | It replicates v243_r (unless country-specific deviations were needed, see EVS 2017: Weighting Data). It contains also imputed values for those respondents with missing values on the source variable (v243_r). |

## 2.5 Country-specific variables

In general, the integrated datasets only include country-specific variables created for questions that could not be harmonised due to differences in wording. Country-specific variables for questions that the country additionally included in the field questionnaire usually are not part of the EVS integrated datasets[2]. An exception is made for additional country-specific variables for Germany and Italy related to the experiments carried out in their surveys. Detailed information on the Italian experiments is provided in section 2.6. The German experiment is related to the mixed-mode approach, and therefore, it is described in the EVS 2017: Guide to the Mixed-mode Approach and Matrix Design, section 6 *'Responsive Design'*.

All country-specific variables in the integrated datasets are named by the alphanumerical country code (e.g., "_IT" for Italy according to ISO 3166-1 alpha-2), and their positions mirror their positions in the field questionnaires. The following table gives an overview of the non-comparable country-specific variables.

*Table 21:     Overview of country-specific variables (deviations)*

*Deviation applying to the German data: for CAWI and Mail matrix-design survey (mr_detailed_mode_DE = 4, 5, 6, and 7), the genuine scale 1, 2, 3, 4 was falsely changed to include an additional middle category ("neither agree nor disagree"): 1, 2, 2.5, 3, 4. The error is corrected for the CAWI and Mail full-length survey.*

v72_DE     DE MODIFIED (additional middle cat): child suffers with working mother (Q25A)

---

[2] They will be provided in an ADD-on data file ('Additional country-specific variables').

v73_DE    DE MODIFIED (additional middle cat): women really want home and children (Q25B)

v74_DE    DE MODIFIED (additional middle cat): family life suffers when woman has full-time job (Q25C)

v75_DE    DE MODIFIED (additional middle cat): man's job is to earn money; woman's job is to look after home and family (Q25D)

v76_DE    DE MODIFIED (additional middle cat): men make better political leaders than women (Q25E)

v77_DE    DE MODIFIED (additional middle cat): university education more important for a boy than for a girl (Q25F)

v78_DE    DE MODIFIED (additional middle cat): men make better business executives than women (Q25G)

v79_DE    DE MODIFIED (additional middle cat): one of main goals in life has been to make my parents proud (Q25H)

*Deviation applying to the Swedish data: Due to a mistake in the field questionnaire that was later corrected, respondents got slightly different question wording; indicated by this flag variable.*

f112_SE    SE MODIFIED QUESTION: are you willing to fight for country (Q36)
                First wording of Q36 using the term 'strida för'
                Second wording of Q36 using the term 'försvara'

*Deviation applying to the data of Denmark (CAWI/Mail), Finland (Mail), Netherlands (CAWI), Iceland (Mail): Answer category "0 It is against democracy", which in CAPI mode is not read out, nor visible on show cards, is visible in CAWI and/or Mail mode questionnaire.*

v133_11c    MODIFIED (cat. 0 displayed): democracy: governments tax the rich and subsidize the poor (Q39A)

v134_11c    MODIFIED (cat. 0 displayed): democracy: religious authorities interpret the laws (Q39B)

v135_11c    MODIFIED (cat. 0 displayed): democracy: people choose their leaders in free elections (Q39C)

v136_11c    MODIFIED (cat. 0 displayed): democracy: people receive state aid for unemployment (Q39D)

v137_11c    MODIFIED (cat. 0 displayed): democracy: the army takes over when government is incompetent (Q39E)

v138_11c    MODIFIED (cat. 0 displayed): democracy: civil rights protect people from state oppression (Q39F)

v139_11c    MODIFIED (cat. 0 displayed): democracy: the state makes people's incomes equal (Q39G)

v140_11c    MODIFIED (cat. 0 displayed): democracy: people obey their rulers (Q39H)

v141_11c    MODIFIED (cat. 0 displayed): democracy: women have the same rights as men (Q39I)

*Deviation applying to the Danish data: Answer category 4 "Not at all often" is missing in the field questionnaire and CAWI/CAPI data.*

v176_DK    DK MODIFIED (cat 4 dropped): how often in country's elections: votes are counted fairly (Q50A)

v177_DK    DK MODIFIED (cat. 4 dropped): how often in country's elections: opposition candidates are prevented from running (Q50B)

v178_DK    DK MODIFIED (cat. 4 dropped): how often in country's elections: TV news favors the governing party (Q50C)

v179_DK    DK MODIFIED (cat. 4 dropped): how often in country's elections: voters are bribed (Q50D)

v180_DK    DK MODIFIED (cat. 4 dropped): how often in country's elections: journalists provide fair coverage of elections (Q50E)

v181_DK    DK MODIFIED (cat. 4 dropped): how often in country's elections: election officials are fair (Q50F)

v182_DK    DK MODIFIED (cat. 4 dropped): how often in country's elections: rich people buy elections (Q50G)

v183_DK    DK MODIFIED (cat. 4 dropped): how often in country's elections: voters are threatened with violence at the polls (Q50H)

*Deviation applying to the Danish data: Answer category "not at all important" is missing in the CAWI part of the data but is present in the CAPI data.*

v221_DK    DK MODIFIED (cat. 4 dropped): important: eliminating income inequalities (Q62A)

v222_DK    DK MODIFIED (cat. 4 dropped): important: basic needs for all (Q62B)

v223_DK    DK MODIFIED (cat. 4 dropped): important: recognizing people on merits (Q62C)

v224_DK    DK MODIFIED (cat. 4 dropped): important: protecting against terrorism (Q62D)

*Deviation applying to the Swiss data: The web question was asked in two parts. First, a rough categorization of the level of education was asked. In the second part, the respondent was asked to specify. The error comes from the fact that in the second part, it was even no need to specify who was concerned by the question (something like: "please precise"). Except in German, where the wrong question was asked. It may be that many respondents did not notice that the instruction was about the respondent: the question is in the middle of a question about the partner. The analysis of the correlation with the respondent's level of education (homogamy of education) shows that there is not much difference from other languages or modes. Although this variable appears to provide correct information about the partner's level of training, it is strongly discouraged from using it in some analyses (information provided by the Swiss team).*

f252_edulvlb_CH    CH MODIFIED QUESTION (WEB_GERMAN): educational level spouse/partner: ESS-edulvlb coding (Q89)
0 question wording corresponds to standard
1 2nd question part in German WEB: 'your' instead of 'spouse/partner'. However, in German the pronoun 'Ihr' for 'your' reads the same as for female partner".

## 2.6 Survey Experiment: EVS 2017 Italy

The description of the experiments implemented in EVS 2017 was provided by the Italian EVS team.

### Variation of the wording of answer categories (translation of disagree)

*Related variables*

| | |
|---|---|
| f46_IT | IT FLAG EXPERIMENT: (answer cat. modified) experimental condition items v46 to v50 (Q12) |
| f199_IT | IT FLAG EXPERIMENT: (answer cat. modified) experimental condition items v199 to v203 (Q56) |

In previous Italian EVS questionnaires, all the batteries regarding agree/disagree with five answer categories were translated with "d'accordo" (in English: agree) and "contrario" (in English: contrary). Although they are synonyms, the term "contrario" could be perceived more negatively than "in disaccordo", which is the literally Italian translation of disagree.

Therefore, we would like to test whether there is a wording effect due to the translation of the word "disagree" by proposing both versions. In order to preserve the comparability with the previous EVS surveys, the batteries Q26 and Q27 maintain the original translation by using the term "contrario". For a similar reason, even in the experimental design, we suggest attributing the original wording of the question and wording categories (Version 1) to 70% of the sample, while the experimental manipulation (Version 2) will involve 30% of the sample.

The experimental design here presented applies to the following batteries:

Q12 (5 items: Q12A-Q12E)
Q56 (5 items: Q56A-Q56E)

Battery Q12 is the first one in the questionnaire with that set of answer categories, while two other batteries (Q26 and Q27) preceding Q56 contain the same answer modalities. In such a way, we would include the experiment both in a battery with no priming and in a battery with possible priming (even though Q26 and Q27 are far from Q56 in the questionnaire).

---

**VERSION 1 – ORIGINAL => 70% of the sample**

E' d'accordo o <u>contrario</u> con le seguenti affermazioni?

Molto d'accordo

D'accordo

<u>Né d'accordo né contrario</u>

<u>Contrario</u>

<u>Molto contrario</u>

**VERSION 2 => 30% of the sample**

E' d'accordo o in <u>disaccordo</u> con le seguenti affermazioni?

Molto d'accordo

D'accordo

<u>Né d'accordo né in disaccordo</u>

<u>In disaccordo</u>

Molto in disaccordo

---

When looking at the distributions of all the variables, we did not observe any significant difference in the distributions between the two experimental conditions.

### Variation of item wordings (migrants/foreign workers vs foreign workers vs migrants)

*Related variables*

| | |
|---|---|
| f24_IT | IT FLAG EXPERIMENT (item wording modified): experimental condition item v24 (Q6C)<br>    1  version 1 - dont like as neighbours: immigrants/foreign workers (item v24)<br>    2  version 2 - dont like as neighbours: foreign workers (item v24a_IT)<br>    3  version 3 - dont like as neighbours: immigrants (item v24b_IT) |
| v24a_IT | IT EXPERIMENT (item wording modified): dont like as neighbours: foreign workers (Q6C: version 2) |
| v24b_IT | IT EXPERIMENT (item wording modified): dont like as neighbours: immigrants (Q6C: version 3) |

In the battery Q6, aimed at measuring the social distance with certain groups of individuals, the item Q6C (Immigrati/lavoratori stranieri, in English: migrants/foreign workers) could lead to some ambiguity in the cognitive process of answering since some individuals could focus more on foreign workers, others on migrants, while others could give the same weights to both the categories.

In order to face this issue, we would propose an alternative formulation that simply refers to foreign workers or migrants. By doing this, we could estimate whether the social distance lowers when deleting the term "migrants" or increases when deleting the term "foreign workers" and to

what extent. Furthermore, whenever an effect is detected, we could even test whether the effect is stronger among specific social groups.

**Experimental design: Item Q6C**

[Su questo cartellino sono elencati diversi tipi di persone. Può indicarmi se c'è qualcuno fra questi che non vorrebbe avere come vicini di casa?]

---

**VERSION 1 – ORIGINAL => 70% of the sample**

Immigrati/lavoratori stranieri *(Eng: Migrants/foreign workers)*

Menzionato

Non menzionato

---

**VERSION 2 => 15% of the sample**

Lavoratori stranieri *(Eng: Foreign workers)*

Menzionato

Non menzionato

---

**VERSION 3 => 15% of the sample**

Immigrati *(Eng: Migrants)*

Menzionato

Non menzionato

---

Findings show that respondents provide a different meaning to the items "immigrants" and "foreign workers". Moreover, when answering the traditional item on "immigrants/foreign workers" the former overweighs the latter.

# 3      Data quality checks

The Data processing guide for EVS 2017 (see EVS 2017 Methodological Guidelines, chapter 5) gives an overview of the datasets created during the data processing workflow and the variables to be included. It also provides information on possible errata in the data and information on the main steps for data checking taken by the national teams in collaboration with the central team. Finally, to standardize the data editing processes as far as possible across countries, the guide summarizes the rules and conditions for data editing the national teams and the central team agreed on.

Two main rules for the treatment of errors or contradictions between variables were suggested:

-    Data problems should be corrected and documented by the national teams if less than 1% of cases were affected in a sample. If more than 1% of cases were affected, and a systematic deviation could be assumed, the data should not be cleaned, but documentation should be provided.

-    In case of non-conformance with interviewer instructions and illogic answer patterns, the data should not be cleaned, but the problems should be documented.

Standardized check procedures were applied, and flag variables were created to treat such non-conformities in a standard way and leave correction decisions up to the final data users.

The EVS 2017 data was checked for wild codes and outliers, system missing codes, filter inconsistencies, contradictions between variables of item batteries, non-conformed interviewer instructions, illogic answer-patterns.

Special check procedures were implemented for checking the consistent implementation of the matrix design and responsive design concepts in the data.

During the data processing, the communication between national teams and the central team was based on national data cleaning reports and syntax files transferred between the central team and national teams. The Programme Directors and their teams were asked to evaluate and approve both, all modifications of the national data done by the central team and the quality of the integrated datasets.

The myEVS portal was the central place for communication and collaboration during the survey.

## Cleaning rules for DK and NA items/categories

The answer categories DK and NA were used differently in the item batteries of the English Master Questionniaire and in the field questionnaires of the countries. Table 13 gives an overview of related item batteries.

*Table 22:     Item batteries with DK and NA items*

| Item battery | Substantive items | Items "DK" "NA" "None of these" |
|---|---|---|
| Q4: do you belong to: religious organization | v9 to v19 | v20 None of these<br>v20a DK<br>v20b NA |
| Q6: dont like as neighbours: people of different race | v22 to v30 | V30a None of these<br>v30b DK<br>V30c NA |
| Q11: important in a job: good pay | v40to v45 | v45a None of these<br>v45b DK |

| | | v45c NA |
|---|---|---|
| Q28: learn children at home: good manners | v85 to v95 | v96 None of these<br>v96a DK<br>v96b NA |

They were included as possible answer categories for every single item or as additional items related to the whole question. To treat the differences between the countries in the same way, two rules were applied:

- DK and NA were coded as additional items only if they were also included as possible answer category to the whole question in the field questionnaire/national data (i.e., the same cases are coded across all items of the item battery as DK or NA) to adhere to the question format of the field questionnaire as much as possible

- If DK and NA were included as additional items, the single items of the battery were also coded as DK and NA (but not as 2 'not mentioned') to treat the 'not mentioned' category in the same way.

*Figure 1: Treatment of DK/NA categories in item batteries*

| item | mentioned | not mentioned | DK | NA |
|---|---|---|---|---|
| V1 | | | x | x |
| V2 | | | x | x |
| V3 | | | x | x |
| DK | x | | | |
| NA | x | | | |

## Flag variables indicating inconsistencies

For the most common non-conformed interviewer instructions and illogic answer patterns across national datasets, flag variables were created that mark such non-conformities and leave correction decisions up to the researcher. Information about the flag and the flagged variables is provided in the Variable Documentation by notes. Example:

> *Flagged variable*: v110 'aims of respondent: most important (Q34)'
> Note: Please see flag variable f110, which indicates inconsistencies for variables v110/v111.

> *Flag variable:* f110 'flag variable: flag variable: aims of respondent (Q34/Q35)'
> Indicates inconsistencies for the variables v110/v111.
> If most important aim is identical with 2nd most important aim.
> if v110 = v111 then f110=1; 0 'consistent'; 1 'inconsistent'

## Three types of non-conformities were flagged

1. 'First/second choice' variables, which were flagged in case the value of the variable for the first choice equalled to the value of the variable for the second choice.

   *Variables*: v108/v109 - f108; v110/v111 - f110

2. 'Multiple response question' variables, which were flagged in case respondents chose more than the maximally permitted items.

   *Variables*: v85 to v95 - f85

3.  'None-item battery' variables were flagged in case the answer-pattern of the 'none'-item vari-
    able and the other variables of the item battery were illogic.

    *Variables*: v9 to v20 - f20; v22 to v30a - f30a; v40 to v45a - f45a; v85 to v96 - f96
    If 'None of these' is not included as additional item in field questionnaire, the flag variable
    is coded as -4     'item not included'
    A flag variable is added to indicate inconsistencies:
    -    0 'Consistent'
    -    1 'Inconsistent: respondent mentions at least one organization and "none of these"'
    -    2 'Inconsistent: respondent is coded DK or NA for at least one item but mentioned
         "none of these"'
    -    3 'Inconsistent: "none of these" is coded DK or NA, although it only allows for sponta-
         neous mention (design error)'

### Reversed coding of question Q51/variable v184 in EVS 2017 Master Questionnaire

Related to the data of Austria, Bulgaria, Latvia, Montenegro, Netherlands, Slovenia, and Slovakia:

In contrast to other questions, values in item Q.51 (see Figure 2) are assigned in descending order,
from 5 'very good' to 1 'very bad' in the Master Questionnaire. Some countries assigned the codes
differing from this in ascending coding from 1 'very good' to 5 'very bad'. In this case, the data have
been recoded according to the Mater Questionnaire.

*Figure 2: Coding of question Q51/v184*

### Notes on deviating filtering

In general, the data have been cleaned according to the skip pattern of the Master Questionnaire.
Systematic filter deviations in national datasets (not included filters or additional filters) were
marked by variable notes, not flag variables.

### Duplicate cases

Data were checked for duplicate cases to identify potentially falsified interviews in the final
release. Duplicate records are defined in terms of the identity of respondents' answers to almost
all questionnaire items, i.e., excluding technical and constructed variables, variables
manipulated/recoded during data processing, gender, and year of birth.

No duplicate entries were detected in the EVS 2017 Integrated Data Set.

# 4 Anonymization measures

The **EVS 2017 Integrated Dataset (ZA7500)** is constructed as a Scientific-Use File (SUF), including all anonymized variables based on the standard EVS questionnaire program. It is released for direct access to the data after registration.

The Restricted-Use File (RUF) **EVS 2017 Integrated Dataset – Sensitive Data (ZA7501)** is provided containing relevant information that cannot be included in the SUF due to its sensitive nature. It is released for contracted off-site access.

## EVS 2017 Integrated Dataset (ZA7500) - Scientific-Use File (SUF)

In the SUF, several common and country-specific anonymization measures were applied to transform publicly disseminated data into de facto anonymous data that still contain as much information as possible and comply with confidentiality demands. Even if direct identifiers were removed or indirect identifiers with detailed text information were recoded, data still contain much factual information about respondents that might be problematic together or in combination with other information.

As this depends on the population characteristics of each country and its regions, anonymity must be finally assessed at the country level. Therefore, every national team was responsible for checking their data according to its confidentiality and local regulations.

To better protect small urban districts/municipalities and individuals with characteristics that stand out, three key variables were considered in the standard 'risk assessment' done by the central teams: Region of interview on NUTS-3 level, Size of municipalities further subdividing NUTS units, Respondent's and spouse/partner's occupation ISCO08 4/3 digit code. Other variables were considered to reduce disclosure risks.

General anonymization measures applied:

- Removing highly detailed information: variables NUTS3, ISCO-4/3 digits dropped

- Combining categories:

    o 8 categories of 'Size of town' variable are combined into 5 categories

    o ISCO_2: the three categories 'armed forces' were combined into one category 0 "Armed Forces Occupations".

    o Rare countries in 'country of birth' variables have been recoded into coarser sub-regions according to the M49 standard (Composition of macro geographical (continental) regions, geographical sub-regions, and selected economic and other groupings: http://unstats.un.org/unsd/methods/m49/m49regin.htm. Since there is no alphanumerical code for such region classification, the numerical codes are held in the alphanumerical variables.)

In consultation with the national teams, country-specific anonymisation measures were carried out. An overview of the measures applied is given in Table 22.

*Table 22:     Overview of anonymization measures applied*

| Variable label | Variable name | Common precautions | Country-specific precautions |

### EVS 2017 Integrated Dataset – Sensitive Data (ZA7501, restricted-use file)

The Restricted Use File is constructed as an ADD-on file providing variables that cannot be included in the Scientific Use File for anonymisation reasons. As already mentioned, off-site access to the RUF is only provided after signing a data usage contract. Detailed information on the study and data access is provided in the study description on GESIS Search.

Besides the variables that cannot be included in the Scientific Use File for anonymisation reasons, the RUF contains small holdings of ID and protocol variables to allow the merging both datasets.

Due to the off-site contracted access, not all the sensitive information anonymized in the SUF can be provided in the RUF. Therefore, only the most analysis relevant variables are included: ISCO, NUTS, and town size.

Table 23 gives an overview of the main differences between the datasets.

*Table 23:     Sensitive data in the Scientific-Use and the Restricted-Use Files*

| Study | EVS 2017 [ZA7500] SUF | EVS 2017 [ZA7501] RUF |

# 5　Variable Documentation and types of notes added

The variable documentation describes each variable in the Integrated Dataset in terms of relevant metadata. It is set up using the GESIS Dataset Documentation Manager (DSDM) and following the international metadata specification for the social and behavioural sciences established by the Data Documentation Initiative (DDI-Codebook/XML).

The documentation combines the description (variable name, values, and labels) of the variables in the dataset with the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the questionnaire. Further, the variable documentation contains frequency counts by country (sample).

## 5.1 Information provided by NOTES

General remarks and comments referring to a certain variable are defined as variable notes. Notes could be references to international standards applied or EVS coding frames, problems in questionnaire translation, but also references to data problems or specific characteristics. A distinction between two types of variable notes can be made:

– Notes referring to the Integrated Dataset, which implies all national datasets,

– Notes referring to a single national dataset.

### Notes concerning the Integrated Dataset

- For harmonized variables (religion, left/right political preference, education, income), information is given on the international standards or EVS coding frames used and the respective standardized country-specific source variable ("_cs" variables) included in the data.

- For country-specific source variables (religion, political party preference, education, income) standardized containing a country identifier (ISO 3166-1), information on the order of country-specific categories in the field questionnaires and a reference to the respective harmonized variable is given.

- Standardized variables include a reference to the international standard used (nationality - ISO 3166-1 alpha-2 code, region - NUTS code, and occupation - ISCO08).

- Translation notes as provided by the translation management tool TMT.

- Information on anonymization measures.

### Notes concerning national data

- Notes referring to deviations between the master and the field questionnaire

- Notes documenting translation problems

- Information on data processing

- Information on anonymization measures

## 5.2 Frequency counts by country (sample)

The variable documentation contains frequency counts for almost all variables. Results are usually broken down by country (sample) or represented by frequency counts in the case of country-specific variables. For variables with long lists of coded "real values" (e.g. age), results are only presented for the corresponding categorized variable if available.

ISO 3166-1 alpha-2 code, according to the variable *c_abrv,* is used to indicate countries (see Table 11 in section 2).

The frequencies for substantive variables are calculated based on weighted data, as indicated with each table, in this case by *gweight*. Due to rounding, users may find slightly different figures using other statistical packages, especially if the number of cases is very low.

Although the variable documentation also refers to the Matrix Design Data (ZA7502), the frequency counts only refer to the integrated data set (ZA7500). The matrix design data (ZA7502) have a more experimental character and are, therefore, more suitable for methodological research.

## 5.3 Information on the Variable Documentation

The example explained below reproduces the information in the variable documentation part for a typical substantive variable.

The complete question and answer texts are taken from the English Master Questionnaire provided by the European Values Study. Different question-wording in the CAWI Master Questionnaire is also documented and marked as 'CAWI/Mail'-specific. The content and construction of technical, administrative, or other generated variables are described as appropriate.

Header with DIGITAL OBJECT IDENTIFIER (doi) linked to the study description in the GESIS Search.

VARIABLE NAME (serial number from questionnaire or assigned by the archive) and VARIABLE LABEL as defined in the dataset, including question number. Suffixes indicate harmonized, constructed or country-specific variables.

QUESTION NUMBER and full QUESTION TEXT from the Master Questionnaire, including interviewer instructions. The suffixes that may appear together with the original question number reflect the item order (multiple items or multiple response questions).

CODE VALUES occurring in the data for this variable and complete ANSWER TEXT from the Master Questionnaire. Code values may differ from the questionnaire specification due to standardization/harmonization.

NOTES delineate additional explanatory text subsuming archive remarks on data processing (e.g. construction principle of indices or other derived variables), cross-country comparability and other issues relevant for the understanding and application

| FR | 0.0 | 2 (0.1) | 5 (0.3) | 319 (17.0) | 410 (21.8) | 320 (17.0) | 480 (25.5) | 343 (18.3) | 100.0 | 1879 | 1872 |

CROSS-TABULATION: The absolute frequencies of the occurrence of values (*absolute values*) refer to the number of cases in the weighted dataset as indicated, in this case, weighted by *gweight*. The relative frequencies (*row per cent*) refer to the valid cases (*n valid sum*), i.e. the total number of cases (*n sum*) reduced by the number of cases defined as missing data (*M*).

FREQUENCY COUNTS: For country-specific variables, relative frequencies are calculated including and excluding missing data (M), i.e. per cent on the basis of all cases (sum) and valid percent on the basis of the valid cases.

# 6. Variable Documentation EVS 2017

| Variable, Label |
| --- |
| **Question Text (English Language)** |

| studyno - GESIS study number |
| --- |

GESIS study number:

With the Full Release, two different EVS survey datasets are provided. The cases are distributed among the datasets according to the characteristics of the survey design in which they were involved:

ZA7500 - EVS 2017 Integrated Dataset

ZA7502 - EVS 2017 Integrated Dataset - Matrix Design Data

Note:

The Integrated Dataset (ZA7500) contains data from 59,438 respondents and 36 countries.

The Matrix Design Dataset (ZA7502) includes data from 10,598 respondents and the four countries (DE IS CH NL) that used the matrix design.

For detailed information on the implementation of the mixed-mode strategy in EVS17, see Variable Report App D: Guide Mixed-Mode Matrix.

BEWARE: Although the present variable documentation is related to both studies, the number of cases mentioned in the notes and the frequency tables are only related to ZA7500 - EVS 2017 Integrated Dataset.

studyno

| | Gültig | | 59438 | | | |

version - GESIS archive version

GESIS Archive Version and date of release

ZA7500 - EVS 2017 Integrated Dataset: 5.0.0 '2022-05-16'

ZA7502 - EVS 2017 Integrated Dataset - Matrix Design Data: 2.0.0 '2020-10-20'

This variable identifies the GESIS archive version number of these data sets and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

For details of the version history and for information on errata in current or former dataset versions, please consult the GESIS data catalogue entry (study description) persistently referenced by the dataset DOI (Digital Object Identifier).

## doi - Digital Object Identifier

Digital Object Identifier (DOI)

This variable holds the Digital Object Identifier (DOI) for the dataset at hand as registered via the da|ra registration agency for economic and social science data. Each dataset version (see variable 'version') has a unique persistent DOI.

For direct access to the complete archive dissemination package for these studies, including new dataset versions, the corresponding DOI needs to be appended to the resolver service URL:

For ZA7500: http://dx.doi.org/doi:10.4232/1.13897
For ZA7502: http://dx.doi.org/doi:10.4232/1.13561

In terms of good scientific practice, the DOI is an important element for the correct citation of a dataset.

id_cocas - unified respondent number

Unified respondent number:

Code comprises 13 digits: YYYY (year of wave), CCC (ISO-Code for country), and NNNNNN (casenumber)

Note:

For countries that used the mixed-mode approach the ID of respondents who answered the CAWI/Mail survey is structured as follows:

YYYY (year of wave), CCC (country ISO 3166-1), 01 (or 03 for Mail in CH), NNNN (caseno).

caseno - original respondent number

Original respondent number

year - survey year

Survey year

mm_select_sample - FLAG MIXED-MODE: subsamples on mode variables

FLAG mixed-mode: subsamples on mode variables

The protocol variable `mm_select_sample' allows distinguishing seven different subsamples, combining information from the `mm_*' variables and the behavior of respondents.

Subsamples 1 to 4 are included in the Integrated Dataset (ZA7500);
Subsamples 2 (partially), 3 and 4 are also included in the Matrix Design Data (ZA7502);
Subsamples 5 to 7 are only part of the Matrix Design Data (ZA7502).

1 interviewer-administered (CAPI PAPI CATI)

2 self-administered full-length questionnaire: original question order (CAWI Mail)

3 self-administered full-length questionnaire: modified question order (CAWI Mail)

4 self-administered matrix: with follow-up (CAWI Mail)

5 self-administered matrix: follow-up non response (CAWI Mail)

6 self-administered matrix: first survey only (CAWI Mail - DE)

7 break-off (less than 50% valid answers)

Note:

The mixed-mode strategy in EVS 2017 was adopted, in different forms, by seven countries: Switzerland, Iceland, Netherlands, Germany, Finland, Denmark, and Latvia.

For detailed information on the implementation of the mixed-mode strategy, see European Values Study (EVS) 2017: Guide to the Mixed-mode Approach and Matrix Design.

mm_mixed_mode - MATRIX DESIGN EXPERIMENT: mixed-mode/matrix design

MATRIX DESIGN EXPERIMENT: mode and questionnaire assigned to respondents

The protocol variable 'mm_mixed_mode' describes the mixed-mode design adopted.

For self-administered mode surveys, 'mm_mixed_mode' identifies the design used (codes 1 to 4);

For interviewer-administered mode surveys, 'mm_mixed_mode' is not applied (code 5).

1 mixed-mode: full questionnaire

2 mixed-mode: full (mod. order) questionnaire

3 mixed-mode: matrix only

4 mixed-mode: matrix and follow-up

5 mixed-mode: not applied

Note:

The mixed-mode strategy in EVS 2017 was adopted, in different forms, by seven countries: Switzerland, Iceland, Netherlands, Germany, Finland, Denmark, and Latvia.

For detailed information on the implementation of the mixed-mode strategy in EVS17, see Variable Report App D: Guide Mixed-Mode Matrix.

mm_mode_fu - MATRIX DESIGN EXPERIMENT: mode of data collection (follow-up)

MATRIX DESIGN EXPERIMENT: mode used for the follow-up survey

The variable 'mm_mode_fu' represents the mode of the data collection in the follow-up (or second round of the matrix design).

For matrix design data it can be either CAWI (code 1);  Mail (code 2); or missing (no follow-up or follow-up non-response).

For interviewer-administered and mixed-mode surveys without matrix design, the variable is not applicable (Code -3).

-9   no follow-up

-8   follow-up non response

-3   not applicable

1   CAWI (follow-up)

2   MAIL (follow-up)

Note:

The mixed-mode strategy in EVS 2017 was adopted, in different forms, by seven countries: Switzerland, Iceland, Netherlands, Germany, Finland, Denmark, and Latvia.

For detailed information on the implementation of the mixed-mode strategy in EVS17, see Variable Report App D: Guide Mixed-Mode Matrix.

mm_matrix_group - MATRIX DESIGN EXPERIMENT: matrix group/variable block

MATRIX DESIGN EXPERIMENT: matrix group/variable block

The variable 'mm_matrix_group' represents the matrix group/variable blocks attributed to each respondent.

The variable differentiates between countries with the follow up, whose groups range from 1 to 6, and the country (Germany) with only the first round of matrix design, whose groups range from 11 to 61. It also contains categories for the full-length questionnaire version (code 7) and the full-length questionnaire with modified order (code 8).
Cases from the interviewer-administered mode are coded as -3 ('non applicable').

-3   not applicable

mm_original_matrix_design_IS - IS MATRIX DESIGN EXPERIMENT: original matrix design assigned

IS MATRIX DESIGN EXPERIMENT: original matrix design assigned

Country-specific variable for the Icelandic sample, which allows identifying the original matrix design to which respondents were randomly assigned to, following the sampling phase. 22 respondents, however, despite being assigned initially to the matrix design, are coded as 1 "mixed-mode: full questionnaire" in the variable 'mm_mixed-mode' because they filled in the full-length postal questionnaire enclosed with the third reminder, instead of the CAWI survey correspondent to the assigned matrix group.

-4   item not included

-3   not applicable

1   Matrix design assigned

2   Full-length questionnaire assigned

fduplicate - FLAG duplication of cases: merging integrated/matrix design dataset

FLAG duplication of cases: merging integrated/matrix design dataset'

This variable flags 5,604 cases, which appear both in the Integrated and the Matrix Design dataset. These are full cases from the full-length design or from the matrix design (only those who also completed the follow-up).

Use this variable to make sure that only one record is retained for each of these cases when merging datasets.

0  no duplication of case after merging

1  duplication of case after merging

Note:

Use this variable to make sure that only one record is retained for each of these cases when merging datasets. Guidance on how to merge the datasets on SPSS, Stata or RStudio can be found in Variable Report, App. D: Mixed-Mode Approach.

fmissings - flag: complete/incomplete case

FLAG: complete/incomplete case

Case-completeness is based on the number of 'no answer' per respondent. This variable flags cases according to the following definition:

- Complete case: Respondent provided valid answers for at least 80% of variables; i.e. less than 20% of variables are coded as 'no answer'.

- Incomplete case: Respondent answered at least 50% but less than 80% of variables; i.e. at least 20% and less than 50% of variables are 'no answer'.

- Break-off case: Respondents who did not answer more than 50% of the variables are excluded from the Integrated dataset. Break-off cases are included in the Matrix Design data for methodological purposes.

0   full/complete case

1   incomplete/partial case

2   Break-off (Matrix Design)

Note:

For detailed information on the implementation of the mixed-mode strategy, see European Values Study (EVS) 2017: Guide to the Mixed-mode Approach and Matrix Design.

v1 - how important in your life: work (Q1A)

Q1

We start with some questions about life in general, leisure time activities and work.

<SHOWCARD 1>

<READ OUT AND CODE ONE ANSWER PER LINE>

Please say, for each of the following, how important it is in your life.

in CAWI,MAIL:

Please indicate how important this is in your life:

Q1.A Work

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  very important

2  quite important

3  not important

4  not at all important

Iceland: Due to a technical failure in the CAPI implementation v1 was not displayed and is therefore missing for the first interviews.

Coded as -4 'item not included' (n=70).

v9 - do you belong to: religious organization (Q4A)

Q4

<SHOWCARD 4>

<DO NOT READ OUT THE LIST – CODE ALL – MAKE SURE THE RESPONDENT READS THE FULL LIST>

Please look carefully at the following list of voluntary organisations and say which, if any, do you belong to?

in CAWI,MAIL:

For each of the following voluntary organisations, please indicate which, if any, do you belong to.

Please indicate whether you belong to...

Q4.A Religious or church organisations

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  mentioned

2  not mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 2 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Please see flag variable f20 which indicates inconsistencies for variables v9 to v20.

v11 - do you belong to: trade unions (Q4C)

Q4

<SHOWCARD 4>

<DO NOT READ OUT THE LIST – CODE ALL – MAKE  SURE THE RESPONDENT READS THE FULL LIST>

Please look carefully at the following list of voluntary organisations and say which, if any, do you belong to?

in CAWI,MAIL:

For each of the following voluntary organisations, please indicate which, if any, do you belong to.

Please indicate whether you belong to...

Q4.C Trade unions

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   mentioned

2   not mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 2 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Please see flag variable f20 which indicates inconsistencies for variables v9 to v20.

v15 - do you belong to: sports/recreation (Q4G)

Q4

<SHOWCARD 4>

<DO NOT READ OUT THE LIST – CODE ALL – MAKE  SURE THE RESPONDENT READS THE FULL LIST>

Please look carefully at the following list of voluntary organisations and say which, if any, do you belong to?

in CAWI,MAIL:

For each of the following voluntary organisations, please indicate which, if any, do you belong to.

Please indicate whether you belong to...

Q4.G Sports or recreation

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   mentioned

2   not mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 2 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Please see flag variable f20 which indicates inconsistencies for variables v9 to v20.

Q4

<SHOWCARD 4>

<DO NOT READ OUT THE LIST – CODE ALL – MAKE SURE THE RESPONDENT READS THE FULL LIST>

Please look carefully at the following list of voluntary organisations and say which, if any, do you belong to?

in CAWI,MAIL:

For each of the following voluntary organisations, please indicate which, if any, do you belong to.

Please indicate whether you belong to...

Q4.J Self-help group, mutual aid group

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  mentioned

2  not mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 2 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Please see flag variable f20 which indicates inconsistencies for variables v9 to v20.

f20 - FLAG inconsistencies: do you belong to - none (spontaneous) (Q4)

Flag variable:

Indicates inconsistencies in the coding pattern of v9-v20 related to "none of these".

-4   item not included

0   consistent

1   inconsistent: respondent mentioned at least one item and none of these

2   inconsistent: respondent is coded DK or NA for at least one item, and mentioned none of these

3   inconsistent: none of these is coded DK or NA, although it is a spontaneous answer category (design error)

Note:

For detailed information, see EVS 2017 Variable Report.

<SHOWCARD 4>

<DO NOT READ OUT THE LIST – CODE ALL – MAKE  SURE THE RESPONDENT READS THE FULL LIST>

Please look carefully at the following list of voluntary organisations and say which, if any, do you belong to?

in CAWI,MAIL:

For each of the following voluntary organisations, please indicate which, if any, do you belong to.

Please indicate whether you belong to...

Q4.M Don't know (to complete question)

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   mentioned

2   not mentioned

Azerbaijan, Austria, Bosnia and Herzegovina, Denmark, France, Italy, Latvia (CAWI), Montenegro, Norway, Poland, Portugal, Russia, Slovakia, Sweden, North Macedonia, Ukraine, Great Britain: "Don't know" and "No answer" were implemented as separate variables in the field questionnaire and refer to the whole question. The single variables of the item battery were recoded to -1 'don't know' and -2 'no answer' according to this 'don't know'/'no answer' variable.

v22 - dont like as neighbours: people of different race (Q6A)

Q6

<SHOWCARD 6>

<READ OUT AND CODE ONE ANSWER PER LINE>

On this list are various groups of people. Could you identify any that you would not like to have as neighbours?

in CAWI,MAIL:

<Check all that apply>

Q6.A People of a different race

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   mentioned

2   not mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 2 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Please see flag variable f30a which indicates inconsistencies for variables v22 to v30a.

v24 - dont like as neighbours: immigrants/foreign workers (Q6C)

Q6

<SHOWCARD 6>

<READ OUT AND CODE ONE ANSWER PER LINE>

On this list are various groups of people. Could you identify any that you would not like to have as neighbours?

in CAWI,MAIL:

<Check all that apply>

Q6.C Immigrants/foreign workers

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   mentioned

2   not mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 2 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Please see flag variable f30a which indicates inconsistencies for variables v22 to v30a.

Italy: Item related to the experiment run on the effect of variating the item wording in Q6.C (migrants/foreign workers vs foreign workers vs migrants). Variable f24_IT indicates the experimental condition attributed to the respondent (v24, v24a_IT, or v24b_IT). For detailed information on the Italian experiments, see the EVS2017 Variable Report.

f24_IT - IT FLAG EXPERIMENT (item wording modified) : experimental condition item v24 (Q6C)

Flag variable related to the Italian experiment on the effect of variating the item wording in Q6.C (migrants/foreign workers vs foreign workers vs migrants). It indicates the experimental condition attributed to the respondent.

-4   item not included

-2   no answer

-1   dont know

1   version 1 - dont like as neighbours: immigrants/foreign workers (item v24)

2   version 2 - dont like as neighbours: foreign workers (item v24a_IT)

3   version 3 - dont like as neighbours: immigrants (item v24b_IT)

Note:

For detailed information on the Italian experiments, see the Variable Report.

f30a - FLAG inconsistencies: dont like as neighbours - none of these (Q6)

Flag variable:

Indicates inconsistencies in the coding pattern of v22-v30a related to "none of these".

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-4   item not included

0   consistent

1   inconsistent: respondent mentioned at least one item and none of these

2   inconsistent: respondent is coded DK or NA for at least one item, and mentioned none of these

3   inconsistent: none of these is coded DK or NA, although it is a spontaneous answer category (design error)

Note:

For detailed information, see EVS 2017 Variable Report.

v30a - dont like as neighbours: wouldn't mind having any of these (Q6)

Q6

<SHOWCARD 6>

<READ OUT AND CODE ONE ANSWER PER LINE>

On this list are various groups of people. Could you identify any that you would not like to have as neighbours?

in CAWI,MAIL:

<Check all that apply>

Q6.J No. I wouldn't mind having any of these as neighbours

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   mentioned

2   not mentioned

Note:

The CAPI master questionnaire does not contain this item, but the CAWI.

Austria, Denmark, Finland, Germany, Latvia, Russia, and Great Britain have implemented this item in their CAPI/PAPI questionnaires too.

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 2 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Please see flag variable f30a which indicates inconsistencies for variables v22 to v30a.

v38 - how much control over your life (Q9)

Q9

<SHOWCARD 9>

Some people feel they have completely free choice and control over their lives, and other people feel that what they do has no real effect on what happens to them. Please use the scale to indicate how much freedom of choice and control you feel you have over the way your life turns out?

in CAWI,MAIL:

Some people feel they have completely free choice and control over their lives, and other people feel that what they do has no real effect on what happens to them. Please indicate how much freedom of choice and control you feel you have over the way your life turns out?

v40 - important in a job: good pay (Q11A)

Q11

<SHOWCARD 11>

<CODE ALL MENTIONED>

Here are some aspects of a job that people say are important. Please look at them and tell me which ones you personally think are important in a job?

in CAWI,MAIL:

Here are some aspects of a job that people say are important. Please indicate which, if any, you think is important in a job?
<Check all that apply>

Q11.A Good pay

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  mentioned

2  not mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 2 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Please see flag variable f45a which indicates inconsistencies for variables v40 to v45a.

f45a - FLAG inconsistencies: important in a job - none of these (spontaneous) (Q11)

Flag variable:

Indicates inconsistencies in the coding pattern of v40-v45a related to "none of these".

-8  follow-up non response

-4  item not included

0  consistent

1  inconsistent: respondent mentioned at least one item and none of these

2  iconsistent: respondent is coded DK or NA for at least one item, and mentioned none of these

3  inconsistent: none of these is coded DK or NA, although it is a spontaneous answer category (design error)

Note:

For detailed information, see EVS 2017 Variable Report.

f46_IT - IT FLAG EXPERIMENT: (answer cat. modified) experimental condition items v46 to v50 (Q12)

Flag variable related to the Italian experiment on a possible wording effect of different translations of the word "disagree" in Q12.

This variable indicates the experimental condition attributed to the respondent.

-4   item not included

-2   no answer

-1   dont know

1   version 1 - d'accordo/contrario (agree/against)

2   version 2 - d'accordo/in disaccordo (agree/disagree)

Note:

Since no significant difference in the distributions between the two experimental conditions could be observed, no differentiated country-specific variable was included in the integrated data set. For detailed information on the Italian experiments, see EVS 2017 Variable Report.

v52 - which religious denomination do you belong to (Q13a) (harmonized)

Q13a

<( Q13=1 ) ASK Q13a>

<SHOWCARD 13a>

Which one?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   Roman catholic

2   Protestant

3   Free church/Non-conformist/Evangelical

4   Jew

5   Muslim

6   Hindu

7   Buddhist

8   Orthodox

9   Other

Note:

Harmonized variable: country-specific categories have been recoded according to EVS common coding frame; for country-specific variable, see v52_cs. The EVS 2017 Variable Report Appendix A1: Religious denomination provides the mapping between source and target variable at the country level. It also includes the categories of the source variables in the original language and their translation into English.

Austria, Azerbaijan, Denmark,  Finland, Hungary, Iceland, Italy, Latvia, Netherlands, Romania, Sweden, Ukraine: For data protection reasons few respondents belonging to minoritarian religious denominations in country have been recoded to 9 'other'.

Note:

Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific categories (religious

denominations). This variable has been harmonized into v52.

For the mapping between source and target variable, see App. 1.

The list of religious denominations in the dataset also includes religions verbatim mentioned by more than 1%  of country's sample in

the "Other"-variable (variables with verbatim records are not part of this dataset).

Austria, Azerbaijan, Bosnia and Herzegovina, Denmark,  Finland, Hungary, Iceland, Italy, Latvia, Netherlands, Romania, Serbia,

Sweden, Ukraine: For data protection reasons few respondents belonging to minoritarian religious denominations in country have

been recoded to 'other'.

Montenegro: Country-specific filter deviation due to programming errors (CAPI): Some respondents currently not belonging to a

religious denomination were not filtered out and mentioned a valid religious denomination (n=21).

v53 - did you belong to a religious denomination (Q14)

Q14

<( Q13=2 ) ASK Q14>

<IF RESPONDENT IS CURRENTLY NOT A MEMBER (Q13!=1), PLEASE ASK:>

Did you ever belong to a religious denomination?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   yes

2   no

Croatia: Different filter instruction: Respondents currently belonging to a religious denomination were not filtered out, but asked for previous religious denomination

v54 - how often attend religious services (Q15)

Q15

<SHOWCARD 15>

<READ OUT AND CODE ONE ANSWER ONLY>

Apart from weddings, funerals and christenings, about how often do you attend religious services these days?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   more than once week

2   once a week

3   once a month

4   only on specific holy days

5   once a year

6   less often

7   never, practically never

Translation note: In non-Christian countries 'christenings' should be replaced by 'baptism'.

v55 - how often attend religious services 12 years old (Q16)

Q16

<SHOWCARD 16>

<READ OUT AND CODE ONE ANSWER ONLY>

Apart from weddings, funerals and christenings, about how often did you attend religious services when you were 12 years old?

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  more than once week

2  once a week

3  once a month

4  only on specific holy days

5  once a year

6  less often

7  never, practically never

Translation note: In non-Christian countries 'christenings' should be replaced by 'baptism'.

v62 - which statement closest to your beliefs (Q20)

Q20

<SHOWCARD 20>

<READ OUT AND CODE ONE ANSWER ONLY>

Which of these statements comes closest to your beliefs?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   personal God

2   spirit or life force

3   don't know what to think

4   no spirit, God or life force

Translation note: By 'personal God', we mean a deity or Supreme Being who is conceived of as a person in the sense of having preferences and plans, feeling anger or approval, and so on, and to whom one can relate in a personal way.  The contrast is with an impersonal higher power. What we do NOT mean is that each person has God inside them or something like that.

v64 - how often do you pray outside religious services (Q22)

Q22

<SHOWCARD 22>

<READ OUT AND CODE ONE ANSWER ONLY>

How often do you pray outside of religious services? Would you say ....

-10  multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   every day

2   more than once week

3   once a week

4   at least once a month

5   several times a year

6   less often

7   never

v72 - child suffers with working mother (Q25A)

Q25

<SHOWCARD 25>

<READ OUT AND CODE ONE ANSWER PER LINE>

For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree?

in CAWI,MAIL:

For each of the following statements, please indicate how strongly you agree or disagree with each.

How much do you agree or disagree with this statement?

Q25.A When a mother works for pay, the children suffer

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   agree strongly

2   agree

3   disagree

4   disagree strongly

Germany CAWI & Mail matrix-design: Due to an error in the field questionnaire used for the CAWI/Mail matrix-design  survey a middle answer category ('neither agree nor disagree') was added in Q25. The question is not further comparable with the Master questionnaire. Concerned cases are coded  -4 'item not included'. For MODIFIED VARIABLES, see v72_DE - v79_DE.

**v72_DE - DE MODIFIED (additional middle cat): child suffers with working mother (Q25A)**

Germany CAWI & Mail matrix-design survey: MODIFIED VARIABLE (additional middle category)

Q25_DE

<SHOWCARD 25>

<READ OUT AND CODE AN ANSWER PER LINE>

For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree?

in CAWI,MAIL:

For each of the following statements, please indicate how strongly you agree or disagree with each.

How much do you agree or disagree with this statement?

Q25_DE.A When a mother works for pay, the children suffer

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   agree strongly

2   agree

3   neither agree nor disagree (additional category)

4   disagree

5   disagree strongly

Due to an error in the field questionnaire used for the CAWI/Mail matrix-design survey a middle answer category ('neither agree nor disagree') was added in Q25. The question is not further comparable with the Master questionnaire. Concerned cases are coded -4 'item not included' in the master variables v72 - v79.

**v73_DE - DE MODIFIED (additional middle cat): women really want home and children (Q25B)**

Germany CAWI & Mail matrix-design survey: MODIFIED VARIABLE (additional middle category)

Q25_DE

<SHOWCARD 25>

<READ OUT AND CODE AN ANSWER PER LINE>

For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree?

in CAWI,MAIL:

For each of the following statements, please indicate how strongly you agree or disagree with each.

How much do you agree or disagree with this statement?

Q25_DE.B A job is alright but what most women really want is a home and children

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   agree strongly

2   agree

3   neither agree nor disagree (additional category)

4   disagree

5   disagree strongly

Due to an error in the field questionnaire used for the CAWI/Mail matrix-design survey a middle answer category ('neither agree nor disagree') was added in Q25. The question is not further comparable with the Master questionnaire. Concerned cases are coded  -4 'item not included' in the master variables v72 - v79.

v74_DE - DE MODIFIED (additional middle cat): family life suffers when woman has full-time job (Q25C)

Germany CAWI & Mail matrix-design survey: MODIFIED VARIABLE (additional middle category)

Q25_DE

<SHOWCARD 25>

<READ OUT AND CODE AN ANSWER PER LINE>

For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree?

in CAWI,MAIL:

For each of the following statements, please indicate how strongly you agree or disagree with each.

How much do you agree or disagree with this statement?

Q25_DE.C All in all, family life suffers when the woman has a full-time job

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  agree strongly

2  agree

3  neither agree nor disagree (additional category)

4  disagree

5  disagree strongly

Due to an error in the field questionnaire used for the CAWI/Mail matrix-design survey a middle answer category ('neither agree nor disagree') was added in Q25. The question is not further comparable with the Master questionnaire. Concerned cases are coded -4 'item not included' in the master variables v72 - v79.

**v76_DE - DE MODIFIED (additional middle cat): men make better political leaders than women (Q25E)**

Germany CAWI & Mail matrix-design survey: MODIFIED VARIABLE (additional middle category)

Q25_DE

<SHOWCARD 25>

<READ OUT AND CODE AN ANSWER PER LINE>

For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree?

in CAWI,MAIL:

For each of the following statements, please indicate how strongly you agree or disagree with each.

How much do you agree or disagree with this statement?

Q25_DE.E On the whole, men make better political leaders than women do

-10  multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   agree strongly

2   agree

3   neither agree nor disagree (additional category)

4   disagree

5   disagree strongly

Due to an error in the field questionnaire used for the CAWI/Mail matrix-design survey a middle answer category ('neither agree nor disagree') was added in Q25. The question is not further comparable with the Master questionnaire. Concerned cases are coded  -4 'item not included' in the master variables v72 - v79.

v76_DE, weighted by gweight

**v77_DE - DE MODIFIED (additional middle cat): university education more important for a boy than for a girl (Q25F)**

Germany CAWI & Mail matrix-design survey: MODIFIED VARIABLE (additional middle category)

Q25_DE

<SHOWCARD 25>

<READ OUT AND CODE AN ANSWER PER LINE>

For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree?

in CAWI,MAIL:

For each of the following statements, please indicate how strongly you agree or disagree with each.

How much do you agree or disagree with this statement?

Q25_DE.F A university education is more important for a boy than for a girl

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  agree strongly

2  agree

3  neither agree nor disagree (additional category)

4  disagree

5  disagree strongly

Due to an error in the field questionnaire used for the CAWI/Mail matrix-design survey a middle answer category ('neither agree nor disagree') was added in Q25. The question is not further comparable with the Master questionnaire. Concerned cases are coded  -4 'item not included' in the master variables v72 - v79.

v77_DE, weighted by gweight

v78_DE - DE MODIFIED (additional middle cat): men make better business executives than women (Q25G)

Germany CAWI & Mail matrix-design survey: MODIFIED VARIABLE (additional middle category)

Q25_DE

<SHOWCARD 25>

<READ OUT AND CODE AN ANSWER PER LINE>

For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree?

in CAWI,MAIL:

For each of the following statements, please indicate how strongly you agree or disagree with each.

How much do you agree or disagree with this statement?

Q25_DE.G On the whole, men make better business executives than women do

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  agree strongly

2  agree

3  neither agree nor disagree (additional category)

4  disagree

5  disagree strongly

Due to an error in the field questionnaire used for the CAWI/Mail matrix-design survey a middle answer category ('neither agree nor disagree') was added in Q25. The question is not further comparable with the Master questionnaire. Concerned cases are coded -4 'item not included' in the master variables v72 - v79.

v78_DE, weighted by gweight

**v79_DE - DE MODIFIED (additional middle cat): one of main goals in life has been to make my parents proud (Q25H)**

Germany CAWI & Mail matrix-design survey: MODIFIED VARIABLE (additional middle category)

Q25_DE

<SHOWCARD 25>

<READ OUT AND CODE AN ANSWER PER LINE>

For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree?

in CAWI,MAIL:

For each of the following statements, please indicate how strongly you agree or disagree with each.

How much do you agree or disagree with this statement?

Q25_DE.H One of my main goals in life has been to make my parents proud

-10  multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   agree strongly

2   agree

3   neither agree nor disagree (additional category)

4   disagree

5   disagree strongly

Due to an error in the field questionnaire used for the CAWI/Mail matrix-design survey a middle answer category ('neither agree nor disagree') was added in Q25. The question is not further comparable with the Master questionnaire. Concerned cases are coded -4 'item not included' in the master variables v72 - v79.

f85 - FLAG inconsistencies: learn children at home: more than five (Q28)

Flag variable:

Indicates inconsistencies for variables v85 to v96.

If respondent named more than the allowed 5 qualities.

if v85 to v96=1 > 5 then f85=1

-9   no follow-up

-8   follow-up non response

-4   Item not included

0   consistent

1   inconsistent

Note:

For detailed information, see EVS 2017 Variable Report.

Germany: All flagged cases correspond to mail-survey.

f96 - FLAG inconsistencies: learn children at home - none (spontaneous) (Q28)

Flag variable:

Indicates inconsistencies in the coding pattern of v85-v96 related to "none of these".

-8   follow-up non response

-4   item not included

0   consistent

1   inconsistent: respondent mentioned at least one item and none of these

2   inconsistent: respondent is coded DK or NA for at least one item, and mentioned none of these

3   inconsistent: none of these is coded DK or NA, although it is a spontaneous answer category (design error)

Note:

For detailed information, see EVS 2017 Variable Report.

v98 - political action: signing a petition (Q30A)

Q30

<SHOWCARD 30>

<READ OUT AND CODE ONE ANSWER PER LINE>

Now I'd like you to look at this card. I'm going to read out some different forms of political action that people can take, and I'd like you to tell me, for each one, whether you have actually done any of these things, whether you might do it or would never, under any circumstances, do it.

in CAWI,MAIL:

Now we would like you to look at this list of different forms of political action that people can take:

Signing a petition

Joining in boycotts

Attending lawful demonstrations

Joining unofficial strikes

We would like you to indicate, for each one, whether you have actually done any of these things, whether you might do it, or whether you would never, under any circumstances, do it.

Please indicate whether you have actually done this, whether you might do it, or whether you would never, under any circumstances, do it.

Q30.A Signing a petition

v99 - political action: joining in boycotts (Q30B)

Q30

<SHOWCARD 30>

<READ OUT AND CODE ONE ANSWER PER LINE>

Now I'd like you to look at this card. I'm going to read out some different forms of political action that people can take, and I'd like you to tell me, for each one, whether you have actually done any of these things, whether you might do it or would never, under any circumstances, do it.

in CAWI,MAIL:

Now we would like you to look at this list of different forms of political action that people can take:

Signing a petition

Joining in boycotts

Attending lawful demonstrations

Joining unofficial strikes

We would like you to indicate, for each one, whether you have actually done any of these things, whether you might do it, or whether you would never, under any circumstances, do it.

Please indicate whether you have actually done this, whether you might do it, or whether you would never, under any circumstances, do it.

Q30.B Joining in boycotts

v104 - take any job vs. right to refuse job when unemployed (Q32B)

Q32

<SHOWCARD 32>

<READ OUT>

On this card you see a number of opposite views on various issues. How would you place your views on this scale?

in CAWI,MAIL:

Please read the following statements and indicate where you would place your views on this scale:

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   unemployed take any job

10   unemployed right to refuse a job

v107 - private vs. government ownership business (Q32E)

Q32

<SHOWCARD 32>

<READ OUT>

On this card you see a number of opposite views on various issues. How would you place your views on this scale?

in CAWI,MAIL:

Please read the following statements and indicate where you would place your views on this scale:

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   private ownership increased

10   government ownership increased

f108 - FLAG inconsistencies: aims of country (Q33/Q33a)

Flag variable:

Indicates inconsistencies for the variables v108/v109.

If the most important aim of country mentioned is identical with the second most important one.

if v108 = v109 then f108=1

f110 - FLAG inconsistencies: aims of respondent (Q34/Q35)

Flag variable:

Indicates inconsistencies for the variables v110/v111.

If the most important aim of country mentioned is identical with the second most important one.

if v110 = v111 then f110=1

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-4  item not included

0  consistent

1  inconsistent

Note:

For detailed information, see EVS 2017 variable report.

v111_4 - post-materialist index 4-item (constructed)

CONSTRUCTED VARIABLE: Post-materialism Index (4 items)

Source variables: v110, v111

[Q34/Q35 If you had to choose, which one of the things on this card would you say is most important? And which would be the next most important?]

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   Materialist

2   Mixed

3   Postmaterialist

Note:

Variable v111_4 includes one set of questions (v110, v111) to measure post-materialism. If a person chose twice the same materialistic (1/1 or 3/3) or post-materialistic (2/2 or 4/4) aim, he/she was coded as materialistic or post-materialistic person. To exclude the cases of equal mentions from analysis use the flag variable (f110) for filtering.

v113 - good/bad: decrease work importance (Q37A)

Q37

<SHOWCARD 37>

<READ OUT AND CODE ONE ANSWER PER LINE>

Here are two changes in our way of life that might take place in the near future. Please tell me for each one, if it were to happen whether you think it would be a good thing, a bad thing, or you do not mind.

in CAWI,MAIL:

We would like you to read these two changes in our way of life that might take place in the near future:

Less importance placed on work in our lives

Greater respect for authority

Please indicate for each one, if it were to happen, whether you think it would be a good thing, a bad thing, or you do not mind.

Please indicate, if this were to happen, whether you think it would be a good thing, a bad thing, or you do not mind.

v114 - good/bad: greater respect for authority (Q37B)

Q37

<SHOWCARD 37>

<READ OUT AND CODE ONE ANSWER PER LINE>

Here are two changes in our way of life that might take place in the near future. Please tell me for each one, if it were to happen whether you think it would be a good thing, a bad thing, or you do not mind.

in CAWI,MAIL:

We would like you to read these two changes in our way of life that might take place in the near future:

Less importance placed on work in our lives

Greater respect for authority

Please indicate for each one, if it were to happen, whether you think it would be a good thing, a bad thing, or you do not mind.

Please indicate, if this were to happen, whether you think it would be a good thing, a bad thing, or you do not mind.

Q37.B Greater respect for authority

v132 - how much confidence in: social media (Q38R)

Q38

<SHOWCARD 38>

<READ OUT AND CODE ONE ANSWER PER LINE>

Please look at this card and tell me, for each item listed, how much confidence you have in them, is it a great deal, quite a lot, not very much or none at all?

in CAWI,MAIL:

Please indicate how much confidence you have in each of the items presented in the next questions. Is it a great deal, quite a lot, not very much or none at all?

Please indicate how much confidence you have in...

Q38.R Social media

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   a great deal

2   quite a lot

3   not very much

4   none at all

Translation note: By 'social media' we mean online facilities that allow users to share information, such as Facebook, Twitter, Google+, Instagram, Reddit, YouTube and many others.
The item should NOT include examples of social media (e.g. "Social media (like Facebook, Twitter etc.)"). If the term "social media" could be misunderstood in your country/language, you may add an interviewer instruction with the examples of social media, specifying that the interviewer should ONLY give examples in case the respondent asks for clarification.

v133 - democracy: governments tax the rich and subsidize the poor (Q39A)

Q39

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39.A Governments tax the rich and subsidize the poor.

-1    dont know

0    it is against democracy [DO NOT READ OUT]

1    not at all an essential characteristic of democracy

10    an essential characteristic of democracy

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), Netherlands: Due to an deviation in the field questionnaire used for the CAWI/Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys.  This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included'. For the MODIFIED VARIABLES, see v133_11c - v141_11c.

v133_11c - MODIFIED (cat. 0 displayed): democracy: governments tax the rich and subsidize the poor (Q39A)

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), and Netherlands (CAWI): MODIFIED VARIABLE (cat. 0 displayed)

Q39_11c
<SHOWCARD 39>
<READ OUT AND CODE ONE ANSWER PER LINE>
Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"
How essential do you think this is as a characteristic of democracy?

Q39_11c.A Governments tax the rich and subsidize the poor.

-10   multiple answers Mail

v135 - democracy: people choose their leaders in free elections (Q39C)

Q39

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39.C People choose their leaders in free elections.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   it is against democracy [DO NOT READ OUT]

1   not at all an essential characteristic of democracy

10   an essential characteristic of democracy

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), Netherlands: Due to an deviation in the field questionnaire used for the CAWI/Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys. This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included'. For the MODIFIED VARIABLES, see v133_11c - v141_11c.

v135_11c - MODIFIED (cat. 0 displayed): democracy: people choose their leaders in free elections (Q39C)

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), and Netherlands (CAWI): MODIFIED VARIABLE (cat. 0 displayed)

Q39_11c

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39_11c.C People choose their leaders in free elections.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non respons

-7   matrix not applied

-6   na (survey break-off)

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   it is against democracy

1   not at all an essential characteristic of democracy

10   an essential characteristic of democracy

Due to a deviation in the field questionnaire used for the CAWI and/or Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys.  This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included' in the master variables v133 - v141.

v136 - democracy: people receive state aid for unemployment (Q39D)

Q39

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39.D People receive state aid for unemployment.

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

0  it is against democracy [DO NOT READ OUT]

1  not at all an essential characteristic of democracy

10  an essential characteristic of democracy

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), Netherlands: Due to an deviation in the field questionnaire used for the CAWI/Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys. This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included'. For the MODIFIED VARIABLES, see v133_11c - v141_11c.

v137 - democracy: the army takes over when government is incompetent (Q39E)

Q39

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39.E The army takes over when government is incompetent.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   it is against democracy [DO NOT READ OUT]

1   not at all an essential characteristic of democracy

10   an essential characteristic of democracy

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), Netherlands: Due to an deviation in the field questionnaire used for the CAWI/Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys.  This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included'. For the MODIFIED VARIABLES, see v133_11c - v141_11c.

v138 - democracy: civil rights protect people from state oppression (Q39F)

Q39

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39.F Civil rights protect people from state oppression.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   it is against democracy [DO NOT READ OUT]

1   not at all an essential characteristic of democracy

10   an essential characteristic of democracy

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), Netherlands: Due to an deviation in the field questionnaire used for the CAWI/Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys.  This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included'. For the MODIFIED VARIABLES, see v133_11c - v141_11c.

v139 - democracy: the state makes people's incomes equal (Q39G)

Q39

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39.G The state makes people's incomes equal.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   it is against democracy [DO NOT READ OUT]

1   not at all an essential characteristic of democracy

10   an essential characteristic of democracy

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), Netherlands: Due to an deviation in the field questionnaire used for the CAWI/Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys. This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded -4 'item not included'. For the MODIFIED VARIABLES, see v133_11c - v141_11c.

v139_11c - MODIFIED (cat. 0 displayed): democracy: the state makes people's incomes equal (Q39G)

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), and Netherlands (CAWI): MODIFIED VARIABLE (cat. 0 displayed)

Q39_11c

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39_11c.G The state makes people's incomes equal.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non respons

-7   matrix not applied

-6   na (survey break-off)

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   it is against democracy

1   not at all an essential characteristic of democracy

10   an essential characteristic of democracy

Due to a deviation in the field questionnaire used for the CAWI and/or Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys.  This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included' in the master variables v133 - v141.

v140 - democracy: people obey their rulers (Q39H)

Q39

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39.H People obey their rulers.

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

0  it is against democracy [DO NOT READ OUT]

1  not at all an essential characteristic of democracy

10  an essential characteristic of democracy

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), Netherlands: Due to an deviation in the field questionnaire used for the CAWI/Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys.  This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included'. For the MODIFIED VARIABLES, see v133_11c - v141_11c.

v141 - democracy: women have the same rights as men (Q39I)

Q39

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39.I Women have the same rights as men.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   it is against democracy [DO NOT READ OUT]

1   not at all an essential characteristic of democracy

10   an essential characteristic of democracy

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), Netherlands: Due to an deviation in the field questionnaire used for the CAWI/Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys.  This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included'. For the MODIFIED VARIABLES, see v133_11c - v141_11c.

Denmark (CAWI & Mail), Finland (Mail), Iceland (Mail), and Netherlands (CAWI): MODIFIED VARIABLE (cat. 0 displayed)

Q39_11c

<SHOWCARD 39>

<READ OUT AND CODE ONE ANSWER PER LINE>

Many things are desirable, but not all of them are essential characteristics of democracy. Please tell me for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

in CAWI,MAIL:

Many things are desirable, but not all of them are essential characteristics of democracy. Please indicate for each of the following things how essential you think it is as a characteristic of democracy. Use this scale where 1 means "not at all an essential characteristic of democracy" and 10 means it definitely is "an essential characteristic of democracy"

How essential do you think this is as a characteristic of democracy?

Q39_11c.I Women have the same rights as men.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non respons

-7   matrix not applied

-6   na (survey break-off)

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   it is against democracy

1   not at all an essential characteristic of democracy

10   an essential characteristic of democracy

Due to a deviation in the field questionnaire used for the CAWI and/or Mail surveys the answer category 0 'it is against democracy', which in CAPI/PAPI is not to read out/visible in the show cards, was visible in the mentioned surveys. This may results in higher proportions of respondents choosing this option. Thus they are not comparable across countries/modes. Affected cases are coded  -4 'item not included' in the master variables v133 - v141.

v144 - satisfaction political system (Q42)

Q42

<SHOWCARD 42>

On a scale from 1 to 10 where "1" is "not satisfied at all" and "10" is "completely satisfied", how satisfied are you with how the political system is functioning in your country these days?

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  not satisfied at all

10  completely satisfied

v148 - political system: democratic (Q43D)

Q43

<SHOWCARD 43>

<READ OUT AND CODE ONE ANSWER PER LINE>

I'm going to describe various types of political systems and ask what you think about each as a way of governing this country. For each one, would you say it is a very good, fairly good, fairly bad or very bad way of governing this country?

in CAWI,MAIL:

In the following questions, various types of political systems will be described. For each one, would you say it is a very good, fairly good, fairly bad or very bad way of governing this country?

Is this a very good, fairly good, fairly bad or very bad way of governing this country?

Q43.D Having a democratic political system

v161 - do you justify: artificial insemination or in-vitro fertilization (Q44M)

Q44

<SHOWCARD 44>

<READ OUT AND CODE ONE ANSWER PER LINE>

Please tell me for each of the following whether you think it can always be justified, never be justified, or something in between, using this card.

in CAWI,MAIL:

Please indicate for each of the following whether you think it can always be justified, never be justified, or something in between.

Can this always be justified, never be justified, or something in between?

Q44.M Artificial insemination or in-vitro fertilization

v164 - how close do you feel: to own town/city (Q45A)

Q45

<SHOWCARD 45>

<READ OUT AND CODE ONE ANSWER PER LINE>

People have different views about themselves and how they relate to the world. Using this card, would you tell me how close do you feel to...?

in CAWI,MAIL:

People have different views about themselves and how they relate to the world. Please indicate how close you feel to the following. Please indicate how close you feel to...

Q45.A your town or city

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   very close

2   close

3   not very close

4   not close at all

Translation note: We are trying to find out what people care about and whether their interests and concerns are local, national or global.  It could also be a matter of identity and what sort of area they might recognise as 'home'.  In this sense 'how they relate' means 'how or where they fit in'.

People have different views about themselves and how they relate to the world. Using this card, would you tell me how close do you feel to...?

in CAWI,MAIL:

People have different views about themselves and how they relate to the world. Please indicate how close you feel to the following. Please indicate how close you feel to...

Q45.C [COUNTRY]

-10  multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   very close

2   close

3   not very close

4   not close at all

Translation note: We are trying to find out what people care about and whether their interests and concerns are local, national or global.  It could also be a matter of identity and what sort of area they might recognise as 'home'.  In this sense 'how they relate' means 'how or where they fit in'.

9

10   right

44   not classifiable

Note:

Harmonized variable: country-specific categories have been recoded according to the placement of national political parties on a left-right scale as delivered by country; for country-specific variable, see v174_cs. The EVS 2017 Variable Report Appendix A2: Left-Right positioning of political parties provides the mapping between source and target variable at the country level. It also includes the categories of the source variables in the original language and their English translation.

Note:

Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific categories (political parties). This variable has been harmonized into v174_LR.

The EVS 2017 Variable Report Appendix A2: Left-Right positioning of political parties provides the mapping between source and target variable at the country level. It also includes the categories of the source variables in the original language and their English translation.

Answer category "66 – No party appeals to me (spontaneous)" was first included in Master Questionnaire alert 05. If the field questionnaire did not contain this category, corresponding verbatim answers in the "Others"-variable were identified by the national teams and recoded into 66.

The list of political parties in the dataset also includes parties verbatim mentioned by more than 1% of country's sample in the "Other"-variable (variables with verbatim records are not part of this dataset).

v175_LR - political party: another appeals to you: left/right scale (Q49a)

Q49a

Is there another party that appeals to you?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   left

2

3

4

5

6

7

8

9

10   right

44   not classifiable

Note:

Harmonized variable: country-specific categories have been recoded according to the placement of national political parties on a left-right scale as delivered by country; for country-specific variable, see v175_cs. The EVS 2017 Variable Report Appendix A2: Left-Right positioning of political parties provides the mapping between source and target variable at the country level. It also includes the categories of the source variables in the original language and their English translation.

Denmark (CAWI&Mail), France, Great Britain, Iceland, Italy, Latvia, Lithuania, Norway, Russia, and Slovakia: Additional country-specific filter - if 'dk', 'na' or 'no party' in v174, skip v175.

Latvia: The additional country-specific filter didn't work for some respondents due to technical problems.

Note:

Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific categories (political parties). This variable has been harmonized into v175_LR.

The EVS 2017 Variable Report Appendix A2: Left-Right positioning of political parties provides the mapping between source and target variable at the country level. It also includes the categories of the source variables in the original language and their English translation.

Answer category "66 – No other party appeals to me (spontaneous)" was first included in Master Questionnaire alert 05. If the field questionnaire did not contain this category, corresponding verbatim answers in the "Others"-variable were identified by the national teams and recoded into 66.

The list of political parties in the dataset also includes parties verbatim mentioned by more than 1% of country's sample in the "Other"-variable (variables with verbatim records are not part of this dataset).

Denmark (CAWI&Mail), France, Great Britain, Iceland, Italy, Latvia, Lithuania, Norway, Russia, and Slovakia: Additional country-specific filter - if 'dk', 'na' or 'no party' in v174, skip v175.

Latvia: The additional country-specific filter didn't work for some respondents due to technical problems.

v176 - how often in country's elections: votes are counted fairly (Q50A)

Q50

<SHOWCARD 50>

<READ OUT AND CODE ONE ANSWER PER LINE>

In your view, how often do the following things occur in this country's elections?

in CAWI,MAIL:

How often do you think that this thing occurs in your country's elections?

Q50.A Votes are counted fairly

-10  multiple answers (Mail)

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  very often

2  fairly often

3  not often

4  not at all often

Denmark: Due to an error, answer category 4 'not at all often' was dropped in the field questionnaire used for the CAWI/Mail survey. The question is not further comparable with the Master questionnaire. Affected cases are coded  -4 'item not included'. For MODIFIED VARIABLES, see v176_DK - v183_DK.

v176_DK - DK MODIFIED (cat 4 dropped): how often in country's elections: votes are counted fairly (Q50A)

Denmark CAWI & Mail: MODIFIED VARIABLE (cat. 4 dropped)

Q50_DK

<SHOWCARD 50>

<READ OUT AND CODE ONE ANSWER PER LINE>

In your view, how often do the following things occur in this country's elections?

in CAWI,MAIL:

How often do you think that this thing occurs in your country's elections?

Q50_DK.A Votes are counted fairly

-10   multiple answers (Mail)

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   very often

2   fairly often

3   not often

Due to an error, answer category 4 'not at all often' was dropped in the field questionnaire used for the CAWI/Mail survey. The question is not further comparable with the Master questionnaire. Affected cases are coded  -4 'item not included' in the master variables v176 - v183.

v177_DK - DK MODIFIED (cat. 4 dropped): how often in country's elections: opposition candidates are prevented from running (Q50B)

Denmark CAWI & Mail: MODIFIED VARIABLE (cat. 4 dropped)

Q50_DK

<SHOWCARD 50>

<READ OUT AND CODE ONE ANSWER PER LINE>

In your view, how often do the following things occur in this country's elections?

in CAWI,MAIL:

How often do you think that this thing occurs in your country's elections?

Q50_DK.B Opposition candidates are prevented from running

-10   multiple answers (Mail)

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   very often

2   fairly often

3   not often

Due to an error, answer category 4 'not at all often' was dropped in the field questionnaire used for the CAWI/Mail survey. The question is not further comparable with the Master questionnaire. Affected cases are coded  -4 'item not included' in the master variables v176 - v183.

v177_DK, weighted by gweight

v178 - how often in country's elections: TV news favors the governing party (Q50C)

Q50

<SHOWCARD 50>

<READ OUT AND CODE ONE ANSWER PER LINE>

In your view, how often do the following things occur in this country's elections?

in CAWI,MAIL:

How often do you think that this thing occurs in your country's elections?

Q50.C TV news favors the governing party

-10   multiple answers (Mail)

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   very often

2   fairly often

3   not often

4   not at all often

Belarus: The item has been implemented in the field questionnaire, even if there is not a governing party in the country.

Denmark: Due to an error, answer category 4 'not at all often' was dropped in the field questionnaire used for the CAWI/Mail survey. The question is not further comparable with the Master questionnaire. Affected cases are coded  -4 'item not included'. For MODIFIED VARIABLES, see v176_DK - v183_DK.

v179_DK - DK MODIFIED (cat. 4 dropped): how often in country's elections: voters are bribed (Q50D)

Denmark CAWI & Mail: MODIFIED VARIABLE (cat. 4 dropped)

Q50_DK

<SHOWCARD 50>

<READ OUT AND CODE ONE ANSWER PER LINE>

In your view, how often do the following things occur in this country's elections?

in CAWI,MAIL:

How often do you think that this thing occurs in your country's elections?

Q50_DK.D Voters are bribed

-10  multiple answers (Mail)

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  very often

2  fairly often

3  not often

Due to an error, answer category 4 'not at all often' was dropped in the field questionnaire used for the CAWI/Mail survey. The question is not further comparable with the Master questionnaire. Affected cases are coded  -4 'item not included' in the master variables v176 - v183.

v184 - immigrants: impact on the development of [your country] (Q51)

Q51

<SHOWCARD 51>

Now we would like to know your opinion about the people from other countries who come to live in [your country] - the immigrants.

How would you evaluate the impact of these people on the development of [your country]?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   very bad

2   quite bad

3   neither good, nor bad

4   quite good

5   very good

Austria, Bulgaria, Latvia, Montenegro, Netherlands, Slovenia, Slovakia:  In contrast to other questions, the values in question Q51 in the master questionnaire are assigned in descending order from 5 "very good" to 1 "very bad". In some countries the codes were assigned in ascending order from 1 "very good" to 5 "very bad". In this case, the data have been recoded according to the Mater questionnaire.

Translation note: Here 'impact' just means 'effect' or 'influence'. We are asking whether the presence of people from elsewhere is positive or negative overall.  (Impact would include socially positive features such as contributions to the economy, enriching the culture through new food and music, etc., and socially negative features such as lowering wages, requiring social support, etc.).

v187 - immigrants are a strain on welfare system (Q52C)

Q52

<SHOWCARD 52>

<READ OUT>

Please look at the following statements and indicate where you would place your views on this scale?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   are a strain

10   are not a strain

v193 - important: to share [national] culture (Q53E)

Q53

<SHOWCARD 53>

<READ OUT AND CODE ONE ANSWER PER LINE>

Some people say the following things are important for being truly [NATIONALITY]. Others say they are not important. How important do you think each of the following is?

in CAWI,MAIL:

Please indicate how important this is to be truly [NATIONALITY]:

Q53.E To share [NATIONAL] culture

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  very important

2  quite important

3  not important

4  not at all important

Translation note: The main point of the question is to distinguish an 'essentialist' view of nationality from one that depends more on integration into mainstream life and culture. The term 'share' is a little ambiguous, but it implies that people participate in a common way of life.

v197 - important: to share European culture (Q54D)

Q54

<SHOWCARD 54>

<READ OUT AND CODE ONE ANSWER PER LINE>

People differ in what they think it means to be European. In your view, how important is each of the following to be European?

in CAWI,MAIL:

Please indicate how important this is to be European:

Q54.D To share European culture

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  very important

2  quite important

3  not important

4  not at all important

Translation note: The main point of the question is to distinguish an 'essentialist' view of nationality from one that depends more on integration into mainstream life and culture.  The term 'share' is a little ambiguous, but it implies that people participate in a common way of life.

**f199_IT - IT FLAG EXPERIMENT: (answer cat. modified) experimental condition items v199 to v203 (Q56)**

Flag variable related to the Italian experiment on a possible wording effect of different translations of the word "disagree" in Q56.

This variable indicates the experimental condition attributed to the respondent.

-4  item not included

-2  no answer

-1  dont know

1  version 1 - d'accordo/contrario (agree/against)

2  version 2 - d'accordo/in disaccordo (agree/disagree)

Note:

Since no significant difference in the distributions between the two experimental conditions could be observed, no differentiated country-specific variable was included in the integrated data set. For detailed information on the Italian experiments, see EVS 2017 Variable Report.

v204 - protecting environment vs. economic growth (Q57)

Q57

<SHOWCARD 57>

<READ OUT AND CODE ONE ANSWER>

Here are two statements people sometimes make when discussing the environment and economic growth. Which of them comes closer to your own point of view?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   protecting the environment priority, even if slower economic growth and loss of jobs

2   economic growth and creating jobs priority, even if environment suffers

3   other answer (code if volunteered only!)

v211 - how often do you follow politics: on social media (Q59D)

Q59

<SHOWCARD 59>

<READ OUT AND CODE ONE ANSWER PER LINE>

How often do you follow politics...

in CAWI,MAIL:

Please indicate how often you follow politics...

Q59.D ... on social media

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  every day

2  several times a week

3  once or twice a week

4  less often

5  never

Translation note: By 'social media' we mean online facilities that allow users to share information, such as Facebook, Twitter, Google+, Instagram, Reddit, YouTube and many others.

The item should NOT include examples of social media (e.g. "Social media (like Facebook, Twitter etc.)"). If the term "social media" could be misunderstood in your country/language, you may add an interviewer instruction with the examples of social media, specifying that the interviewer should ONLY give examples in case the respondent asks for clarification.

Note:

Verbatim recorded answers standardized according to ISO 3166-1 numeric codes. Former countries are coded under ISO 3166-3.

For data protection reasons, few single countries have been aggregated to coarser sub-regions according to the geographic regions of the M49 standard (Source: https://unstats.un.org/unsd/methodology/m49/).

**v229 - year in which respondent came to live in [country] (Q67)**

Q67

<( Q65=2 ) ASK Q67>

Can you tell me in which year you first came to live in [COUNTRY]

Write in year:

in CAWI,MAIL:

In which year did you first come to live in [COUNTRY]?

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1941   1941 and before

Note:

For data protection reasons, all respondents who came to live in country before 1941 have been recoded to '1941  and before'.

Denmark, Latvia, Netherlands, Romania, Sweden: Content related inconsistencies: In a few cases, the stated year of immigration is before the year of birth (total n=5).

v230 - father born in [country] (Q68)

Q68

<ASK ALL>

Was your father born in [COUNTRY]?

<( Q68=1 || Q68=8 || Q68=9 ) GOTO Q70>

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   yes

2   no

Austria: Additional spontaneous answer category 'not applicable' for "no father" has been recoded into -2 'no answer' (n=2).

Denmark:  Filter inconsistency: two cases stated their father was born in country (v230=1) but stated a different country of birth (v231b, v231b_r valid).

Note:

Verbatim recorded answers standardized according to ISO 3166-1 alpha-numeric codes (2-letter code). Former countries are coded under ISO 3166-3 (4-letter code).

For data protection reasons, few single countries have been aggregated to coarser sub-regions according to the geographic regions of the M49 standard (Source: https://unstats.un.org/unsd/methodology/m49/).

Denmark:  Filter inconsistency: two cases stated their father was born in country (v230=1) but stated a different country of birth (v231b, v231b_r valid).

v231b_r - fathers country of birth (ISO 3166-1 numeric code) (Q69)

v234 - current legal marital status respondent (Q72)

Q72

<ASK ALL>

What is your current legal marital status?

<WIDOWED AND DIVORCED FROM A MARRIAGE OR REGISTERED PARTNERSHIP ONLY, NOT FROM COHABITATION>

<( Q72=6 || Q72=8 || Q72=9 ) GOTO Q74>

in CAWI,MAIL:

<"Widowed" and "divorced" should only refer to previous marriage or registered partnership, and NOT to cohabitation.>

-10 multiple answers Mail

-9 no follow-up

-8 follow-up non response

-5 other missing

-4 item not included

-3 not applicable

-2 no answer

-1 dont know

1 married

2 registered partnership

3 widowed

4 divorced

5 separated

6 never married and never registered partnership

Azerbaijan, Belarus, Georgia, Poland, Portugal, Russia: answer category 2 'registered partnership' was not implemented because it is not a legal form of union in country.

Iceland, Slovenia, Ukraine: Category used for registered partnership refers to cohabitation.

Russia: answer category 5 'separated' not included in field questionnaire.

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Netherlands: Due to an error in the filter programming of v234, all respondents who are married or living in a registered partnership (v234=1 or 2) were asked for v236. They all got the questions about partners/spouses (v250-v258), regardless of their answer in v236 "Living with partner".

Serbia: Due to an error in edited field questionnaire, the filter instructions are contradictory: While the skipping instrucions in Q72 (v234): 6-9 go to Q74 are conform with the master questionnaire, the Interviewer instruction for Q74 (v236) is "AKO JE U ISPITANIK U BRAKU ILI REGISTROVANOM PARTNERSTVU" (ask if respondent is married or in registered partnership), who should actually skip to Q76. This deviations leads to filter inconformities in the data.

All married (n=725)/in registered partnership (n=41) have been asked v236. All widowed (n=145), divorced (n=118) & separated (n=5) respondents have skipped v236. Respondents who were never married or in registered partnership or coded missing (n=466) should have been asked v236: due to the contradictory filter instructions, n=301 respondents have substantial answers and 165 skipped the question and are coded as -2 ‚no answer'.
For all cases, answer pattern in v237 is clearly non-conform with any of the instructions.

Ukraine: The filter used for v236 and v237 differs from the master questionnaire: respondents coded in 2 'resgistered partnership' (transl. "civil marriage") did not skip v236 (n=88).

Italy: The response category "Registered partnership" has been translated as "Unito/a civilmente". The percentage of respondents in the sample who indicated this category as their family status was much more in line with that of "civil marriage" than with "registered civil partnership". This seems to be due to a misunderstanding: it was understood as civil (instead of religious) marriage. Therefore, and after the suggestion of the Principal Investigator, they were recoded as 1 "married". Consequently, no cases are coded as 2 "registered civil partnership".

-1  dont know

1  yes

2  no

Some respondents live with their partner (v236=1) and still live alone (v240=1). These are not necessarily inconsistent answers, as some people live together but at separate addresses (LAP=living apart together).

Bulgaria: Filter inconformity: n=95 cases have answers, although they should not have been asked the question due to routing (v234=1,2).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Netherlands: Due to an error in the filter programming of v234, all respondents who are married or living in a registered partnership (v234=1 or 2) were asked for v236. They all got the questions about partners/spouses (v250-v258), regardless of their answer in v236 "Living with partner".

Serbia: Due to an error in edited field questionnaire, the filter instructions are contradictory: While the skipping instrucions in Q72 (v234): 6-9 go to Q74 are conform with the master questionnaire, the Interviewer instruction for Q74 (v236) is "AKO JE U ISPITANIK U

BRAKU ILI REGISTROVANOM PARTNERSTVU" (ask if respondent is married or in registered partnership), who should actually skip to Q76. This deviations leads to filter inconformities in the data.

All married (n=725)/in registered partnership (n=41) have been asked v236. All widowed (n=145), divorced (n=118) & separated (n=5) respondents have skipped v236. Respondents who were never married or in registered partnership or coded missing (n=466) should have been asked v236: due to the contradictory filter instructions, n=301 respondents have substantial answers and 165 skipped the question and are coded as -2 ‚no answer'.

For all cases, answer pattern in v237 is clearly non-conform with any of the instructions.

Consequently, there are also filter inconsitencies in all spouse/partner related questions v250 to v258.

v239_r - number of children in/outside HH (constructed) (Q77)

TOTAL NUMBER OF CHILDREN - CONSTRUCTED

Source variables: v239a and v239b

[Q77A Number of children in household; Q77B Number of children outside household]

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   no children

5   5 and more

Note:

For data protection reasons, respondents with 5 children and more have been recoded to 5 '5 children and more'.

Bulgaria: There are no respondents in the data who have both children living in the household and children living outside. No source of error could be found for these infrequent data.

Great Britain, Netherlands: Additional answer category 'don't know' included by default in the national field questionnaire.

v239a - number of children in household (Q77A)

Q77

How many children do you have? Please tell me how many of them live in your household and how many live elsewhere:

in CAWI,MAIL:

How many children do you have? Please indicate how many of them live in your household and how many live elsewhere:
<If you do not have children, just write 0>

Q77A Number of children in household

-10  multiple answers Mail
-9  no follow-up
-8  follow-up non response
-5  other missing
-4  item not included
-3  not applicable
-2  no answer
-1  dont know
3  3 and more

Note:

For data protection reasons, respondents with 4 children and more in household have been recoded to 4 '4 children and more'.

Czechia, Denmark, Finland, Germany, Great Britain, Iceland, Lithuania, Netherlands, Norway, Poland, Serbia, Slovenia, Sweden, Switzerland, France, Montenegro, Bosnia and Herzegovina:
Content related inconsistencies: In n=847 cases the number of children living in household exceeds the overall number of people living in household.

Bulgaria: There are no respondents in the data who have both children living in the household and children living outside. No source of error could be found for these infrequent data.

Great Britain, Netherlands: Additional answer category 'don't know' included by default in the national field questionnaire.

Content related inconsistencies: In some countries respondents stated their age or older for the youngest person in the household, although there are children living in household (total n=290). Countries reported some difficulties in defining households and children to be counted to live in. This could explain some inconsistencies between the number of children and persons living in household

Countries reported some difficulties in defining households and children to be counted to live in HH. This probably explains the inconsistencies between the number of children living in HH and total number of persons in household.

Belarus: Additional interviewer instruction pointing out that children are also considered to be partner's children, adopted children, and  step children.

Germany: Refined interviewer instruction during the fieldwork to point out that answers need to be consistent with the number of persons in household.

v239b - number of children outside household (Q77B)

Q77

How many children do you have? Please tell me how many of them live in your household and how many live elsewhere:

in CAWI,MAIL:

How many children do you have? Please indicate how many of them live in your household and how many live elsewhere:

<If you do not have children, just write 0>

Q77B Number of children outside household

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

3  3 and more

Note:

For data protection reasons, respondents with 3 children and more outside household have been recoded to 3 '3 children and more'.

Bulgaria: There are no respondents in the data who have both children living in the household and children living outside. No source of error could be found for these infrequent data.

Great Britain, Netherlands: Additional answer category 'don't know' included by default in the national field questionnaire.

Countries reported some difficulties in defining households and children to be considered that lead to inconsistencies between the number of children in HH and the number of people living in household.

Belarus: additional interviewer instruction pointing out that children are also considered to be partner's children, adopted children, and  step children.

Germany: refined interviewer instruction during the fieldwork to point out that answers need to be consistent with the number of persons in household.

v240 - number of people in household (Q78)

Q78

Including yourself, how many people – including children – live here regularly as members of this household?

<If you live alone, just write 1 and skip the next question>

<( Q78=1 ) GOTO Q80>

Write in: .............................

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   I live alone

6   6 and more

Note:

For data protection reasons, respondents with 6 people or more living in household have been recoded to 6 '6 and more'.

Content related inconsistencies between number of people living in household and related variables like "living with partner" (v236=1), living with parents/parents in law (v238=2,3,4) and number of own children in household (v239a) might be an indicator of different understanding of household.

Bosnia and Herzegovina, Czechia, Denmark, Finland, France, Georgia, Germany, Great Britain, Iceland, Lithuania, Montenegro, Netherlands, Norway, Poland, Serbia, Slovenia, Sweden, Switzerland:
Content related inconsistencies: In n=847 cases the number of children living in household exceeds the overall number of people living in household.

In some countries respondents (total n=561) stated to live with their partner (v236=1) and still live alone (v240=1). These are not necessarily inconsistent answers, as some people live together but at separate addresses (LAP=living apart together).

Bosnia and Herzegovina, Czechia, Denmark, Estonia, Finland, France, Georgia, Germany, Great Britain, Hungary, Iceland, Lithuania, Montenegro, Netherlands, Norway, Poland, Poland, Romania, Serbia, Slovakia, Slovenia, Sweden, Switzerland:
Content related inconsistencies: In some cases the respondent stated to live with parents/parents in law/both and even though answered to be living alone (or 2 pers. In HH but living with both, parents and parents in law) (total n=164).

Montenegro: 1 respondent report a number of people living in household, which significantly exceeds the expected number after answers to other variables: v236 (partner), v238(parents (in law)), v239a (children). 1 respondent reports a high number of children living outside household (v239b) and not inside household (v239a), whereby the reported number does fit to the number of people living inside household (v240).

v241 - age of youngest person in household (Q79)

Q79

<( Q78!=1 ) ASK Q79>

And what is the age of the youngest person in your household?

Write in:

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

80   80 and older

Note:

For data protection reasons, all cases with age of youngest person in HH over 80 years of age have been recoded to '80 and older'.

In earlier versions of the master questionnaire, the response category 777 "nap" was missing. As a result, filter inconsistencies have occurred in some countries. The data has been corrected according to the filter statement in the Master Questionnaire: If the respondent lives alone (v240=1) and v241=age, v241=-3 'nap'. If the age mentioned in v241 is not equal/diff>1 repondent's age, cases have not been corrected.

Finland MAIL: The filter instruction was missing in the Field questionnaire used for the MAIL mode, so that all respondents living alone did answer v241. In this case, data was  not corrected.

Albania, Czechia, Denmark, Estonia, Germany, Georgia, Latvia, Netherlands, Norway, Romania, Serbia, Switzerland, Croatia, Iceland, Poland, Sweden,  Bosnia and Herzegovina, Montenegro:
Content related inconsistencies: In few cases the person mentioned as the youngest in household is significantly older than the respondent himself (total n=168).

Content related inconsistencies: In some countries respondents stated their age or older for the youngest person in the household, although there are children living in household (total n=290). Countries reported some difficulties in defining households and children to be counted to live in. This probably explains the inconsistencies related to number of children and household.

**v242 - age completed education respondent (Q80)**

Q80

<ASK ALL>

At what age did you complete your full time education, either at school or at an institution of higher education? Please exclude apprenticeships.

<If respondent is still at school, ask:>

At what age do you expect you will have completed your education?

Write in age:

in CAWI,MAIL:

If you are still at school, please indicate at what age do you expect you will have completed you education.

If you did not have any formal education, please write 0

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   no formal education

7   7 and younger

70   70 and older

Note:

For data protection reasons, all respondents that completed education up to 7 years of age have been recoded to '7 and younger'; all respondents that completed education over 70 years of age have been recoded to '70 and older'.

Austria, Latvia: For data protection reasons one respondent has been recoded to -2 'no answer'.

Albania, Bosnia and Herzegovina, Denmark, Finland, France, Germany, Great Britain, Iceland, Italy, Netherlands, Serbia, Slovenia, Spain, Switzerland:

 In total n=362 respondents indicated to do not have any formal education (v242=0) but also stated having a certain level of education (v243_edulvlvb gt 0).

Some respondents stated to have complete a higher educational level in a low age. They could have mentioned the duration of their educational level rather than their age by completion of it. A better approximation could be to calculate the average age by completion of that level.

v242_r - What age did you complete your education (recoded in intervals) (Q80)

AGE AT COMPLETION OF FULL TIME EDUCATION - RESPONDENT (RECODED VARIABLE)

Source variable: v242

80   Doctoral or equivalent level

6666   other

Note:

Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Since the 2nd and 3rd digits of ISCED are not hierarchical but cross-cutting, we provide two versions of ISCED 2-digit:

- v243_ISCED_2 (Version A) is obtained by cutting the 3rd digit from the 3-digit variables (v243_ISCED_3) and indicates the ISCED level plus the information about the vocational/general orientation of the program.

- v243_ISCED_2b (Version B) is obtained by cutting the 2nd digit from the 3-digit variable(v243_ISCED_3) and indicates the ISCED level plus whether there is access to the next higher level or not.

For country-specific variable, see v243_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v243_ISCED_2b - educational level respondent: ISCED-code two digit, second option (Q81)

EDUCATIONAL LEVEL RESPONDENT: ISCED code - 2 digits (HARMONIZED VARIABLE, version B)

Source variable: v243_cs, v243_edulvlb

[Q81 What is the highest educational level that you have attained?]

v243_EISCED - educational level respondent: ES-ISCED coding (Q81)

EDUCATIONAL LEVEL RESPONDENT: ES-ISCED code (HARMONIZED VARIABLE)

Source variable: v243_cs, v243_edulvlb

[Q81 What is the highest educational level that you have attained?]

-9   no follow-up

-8   follow-up non respons

-7   matrix not applied

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   No formal or less than primary education

1   I - Primary education

2   II - Lower secondary (including vocational training that is not considered as completion of upper secondary education)

3   IIIb - Upper secondary without access to university

4   IIIa - Upper secondary with access to university

5   IV - Post-secondary/advanced vocational education below bachelor's degree level

6   V1 - Bachelor's level

7   V2 - Master's and higher level

6666   other

Note:

Harmonized variable: highest educational level achieved using the ES-ISCED classification scheme. For country-specific variable, see v243_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v243_ISCED97 - educational level respondent: ISCED97-code one digit (Q81)

EDUCATIONAL LEVEL RESPONDENT: ISCED97-CODE 1 DIGIT (HARMONIZED VARIABLE)

Source variable: v243_cs, v243_edulvlb

[Q81 What is the highest educational level that you have attained?]

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   don't know

0   Pre-primary education or none education

1   Primary education or first stage of basic education

2   Lower secondary or second stage of basic education

3   (Upper) secondary education

4   Post-secondary non-tertiary education

5   First stage of tertiary education

6   Second stage of tertiary education

Note:

Harmonized variable: highest educational level achieved using the ISCED 1997 classification scheme. For country-specific variable, see v243_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v243_8cat - educational level respondent: 8 categories (Q81)

EDUCATIONAL LEVEL RESPONDENT: 8 CATEGORIES (HARMONIZED VARIABLE)

Source variable: v243_cs, v243_edulvlb

[Q81 What is the highest educational level that you have attained?]

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   don't know

1   Inadequately completed elementary education

2   Completed (compulsory) elementary education

3   Incomplete secondary school: technical/vocational type

4   Complete secondary school: technical/vocational type/secondary

5   Incomplete secondary: university-preparatory type/secondary

6   Complete secondary: university-preparatory type/full secondary

7   Some university without degree/higher education - lower-level tertiary

8   University with degree/higher education - upper-level tertiary

Note:

Harmonized variable: highest educational level achieved using the EVS/WVS agreed classification for the trend files. For country-specific variable, see v243_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v243_r - educational level respondent: recoded (Q81)

EDUCATIONAL LEVEL RESPONDENT: 3 categories (HARMONIZED VARIABLE)

Source variable: v243_cs, v243_edulvlb

[Q81 What is the highest educational level that you have attained?]

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

Note:

Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific educational categories. Variable has been harmonized according to ESS-eduvlbl. The EVS 2017 Variable Report Appendix A3: Educational level provides the mapping between source and target variable at the country level. It also includes the categories of the source variables in the original language and their translation into English.

Austria: For data protection reasons some respondents have been recoded to more general categories.

Latvia: For data protection reasons one respondent has been recoded to -2 'no answer'.

Albania, Bosnia and Herzegovina, Denmark, Finland, France, Germany, Great Britain, Iceland, Italy, Netherlands, Serbia, Slovenia, Spain, Switzerland:
In total n=362 respondents indicated to do not have any formal education (v242=0) but also stated having a certain level of education (v243_edulvlvb gt 0).

Some respondents stated to have complete a higher educational level in a low age. They could have mentioned the duration of their educational level rather than their age by completion of it. A better approximation could be to calculate the average age by completion of that level.

Germany, Great Britain: Educational level is measured by more than one question in the field questionnaire, which cannot be compiled in the general country-specific variable on educational level (Vxxx_CS= -4 'item not included'). See country-specific variables: Vxxx_cs_DE1 to _DE3 (Germany) and Vxxx_cs_GB1 and _GB2 (Great Britain).

27605   Qualification of civil servants for the medium level

27606   Qualification in the Dual System (second cycle), industrial or agricultural sector

27607   Qualification in the Dual System (second cycle), sales sector

27608   Qualification of a vocational full-time school

27609   Occupational qualification (second cycle) for students with occupational qualification or with university entrace qualif

27610   Master craftsmen's or Technician's qualification (or equal)

27611   other, please specify: (write in)

Note:

In Germany educational level is measured by three questions in the field questionnaire, which cannot be compiled in the general country-specific variable v243_CS: 1. highest school leaving certificate (v243_CS_DE1), 2. highest university leaving certificate (v243_CS_DE2), 3. highest vocational training certificate (v243_CS_DE3). These variables have been harmonized according to ESS-eduvlbl. For the mapping of source and target variable, see EVS 2017 Variable Report, App. A3.

v243_cs_GB1 - GB COUNTRY-SPECIFIC: educational level respondent: Up to 2 or more A-levels or equivalent (Q81a)

Great Britain: COUNTRY-SPECIFIC educational level respondent: Up to 2 or more A-levels or equivalent (Q81a)

Q81a

<SHOW CARD 81a>

I am now going to show you two cards showing some different examinations or qualifications.

Firstly, have you passed any of the examinations on this card? Please choose the section into which your HIGHEST level of education falls.

<CODE 'NONE' IF RESPONDENT HAS NONE OF THE QUALIFICATIONS LISTED ON THE CARD>

<PRESS <F9> TO VIEW THE QUALIFICATIONS LISTED ON THE CARD>

- -10   multiple answers Mail
- -9   no follow-up
- -8   follow-up non response
- -5   other missing
- -4   item not included
- -3   not applicable
- -2   no answer
- -1   dont know
- 82601   2 or more A-levels or equivalent
- 82602   GNVQ or GSVQ Intermediate
- 82603   Vocational GCSE or equivalent
- 82604   5 or more GCSEs A*-C or equivalent
- 82605   1-4 GCSEs A*-C or equivalent
- 82606   Skills for life
- 82607   None of these

Note:

In Great Britain, the educational level is measured by two questions in the field questionnaire, which cannot be compiled in the general country-specific variable v243_CS: 1. Up to 2 or more A-levels or equivalent (v243_CS_GB1), 2. Up to Ph.D or equivalent (v243_CS_GB2). These variables have been harmonized into to ESS-eduvlbl. For the mapping of source and target variable, see EVS 2017 Variable Report, App. A3.

v243_cs_GB2 - GB COUNTRY-SPECIFIC: educational level respondent: Up to Ph.D or equivalent (Q81b)

Great Britain: COUNTRY-SPECIFIC educational level respondent: Up to Ph.D or equivalent (Q81b)

Q81b

<SHOW CARD 81b>

[I am now going to show you two cards showing some different examinations or qualifications.]

And have you passed any of the examinations on this card? Please choose the section into which your HIGHEST level of education achieved falls.

<CODE 'NONE' IF RESPONDENT HAS NONE OF THE QUALIFICATIONS LISTED ON THE CARD>

<FOR FOREIGN QUALIFICATIONS, ASK THE RESPONDENT TO CHOOSE THE CLOSEST EQUIVALENT FROM THE QUALIFICATIONS ON THE LIST. PLEASE NOTE THAT THIS MAY APPEAR AT THIS QUESTION OR THE PREVIOUS ONE. IF IT IS NOT POSSIBLE TO FIND THE CLOSEST EQUIVALENT FROM EITHER LIST, PLEASE CODE AS OTHER>

<PRESS <F9> TO VIEW THE QUALIFICATIONS LISTED ON THE CARD>

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

82601   Ph.D, D.Phil or equivalent

82602   Masters Degree, M.Phil, Post-Graduate Diplomas and Certificates

82603   5 year University/CNAA first Degree (MB, BDS, BV etc)

82604   3-4 year University/CNAA first Degree (BA, BSc., BEd., BEng. Etc)

82605   Nursing certificate, Teacher training, HE Diploma, Edexcel/BTEC/BEC/TEC/HND, City and Guilds, NVQ/SVQ - Leve

82608   HE Access

82609   Vocational A-level (AVCE), GCE Applied A-level, NVQ/SVQ Level 3, GNVQ/GSVQ Advanced, Edexcel/BTEC/BEC/TEC (G

82610   (Modern) Apprenticeship, Advanced (Modern) Apprenticeship, SVQ/NVQ/Key Skills Level 1 and 2, City and Guild

82611   None of these

82612   Any other qualifications (specify)

Note:

In Great Britain, the educational level is measured by two questions in the field questionnaire, which cannot be compiled in the general country-specific variable v243_CS: 1. Up to 2 or more A-levels or equivalent (v243_CS_GB1), 2. Up to Ph.D or equivalent (v243_CS_GB2). These variables have been harmonized into to ESS-eduvlbl. For the mapping of source and target variable, see EVS 2017 Variable Report, App. A3.

**v244 - paid employment/no paid employment (Q82)**

Q82

<SHOWCARD 82>

Are you yourself gainfully employed at the moment or not? Please select from the card the employment status that applies to you.

<IF MORE THAN ONE JOB: ONLY FOR THE MAIN JOB>

<ONLY IF RESPONDENT DOES NOT WORK BECAUSE OF DISABILITY!>

<( Q82=1 || Q82=2 || Q82= 3 ) GOTO Q84>

<( Q82=4 || Q82=5 || Q82=6 || Q82=7 || Q82=8 || Q82=9 || Q82=10 || Q82=88 || Q82=99 ) GOTO Q83>

in CAWI,MAIL:

Are you yourself gainfully employed at the moment or not? Please select from the list below the employment status that applies to you.

<If you have more than one job, please only refer to your main job.>

<Please indicate "Disabled" only if you do not work because of disability.>

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   30h a week or more

2   less then 30h a week

3   self employed

4   military service

5   retired/pensioned

6   homemaker not otherwise employed

7   student

8   unemployed

9   disabled

10   other

The routing in the Master Questionnaire treats the category "other" as not in paid employment. Even though there are cases in this category that are in fact in paid employment (e.g. paid parental leave). In this case, it is not clear whether the answers to the following questions refer to the current job of the individual or to a former one.

Germany: Category 04 means "federal voluntary service", not "military service", because there is no compulsory military service any longer.

**v246_ISCO_2 - kind of job respondent - 2 digit ISCO08 code (Q84a)**

KIND OF JOB - RESPONDENT: 2-DIGIT ISCO 08 CODE (STANDARDIZED VARIABLE)

Q84

<( Q82=1 || Q82=2 || Q82=3 || Q83=1 || Q83=2 ) ASK Q84>

<IF RESPONDENT HAS PAID EMPLOYMENT NOW, Q82 = 01-03, ASK:>

What is the name or title of your main job?

<IF RESPONDENT HAD PAID EMPLOYMENT BEFORE, Q83=1,2 ASK:>

What was the name or title of your main job?

<IF RESPONDENT HAS/HAD MORE THAN ONE JOB. ASK HIS/HER OCCUPATION IN THE MAIN JOB!>

<WRITE IN AS DETAILED AS POSSIBLE>

Write in:

in CAWI,MAIL:

<If you have/had more than one job, please describe your occupation in the main job.>

<Please write in as detailed as possible!>

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

0  Armed Forces Occupations

1  Commissioned Armed Forces Officers

2  Non-commissioned Armed Forces Officers

3  Armed Forces Occupations, Other Ranks

10  ISCO 1-digit: Managers

11  Chief Executives, Senior Officials and Legislators

12  Administrative and Commercial Managers

13  Production and Specialized Services Managers

14  Hospitality, Retail and Other Services Managers

20  ISCO 1-digit: Professionals

21  Science and Engineering Professionals

22  Health Professionals

23  Teaching Professionals

24  Business and Administration Professionals

25  Information and Communications Technology Professionals

26  Legal, Social and Cultural Professionals

30  ISCO 1-digit: Technicians and Associate Professionals

31  Science and Engineering Associate Professionals

32  Health Associate Professionals

33   Business and Administration Associate Professionals

34   Legal, Social, Cultural and Related Associate Professionals

35   Information and Communications Technicians

40   ISCO 1-digit: Clerical Support Workers

42   Customer Services Clerks

43   Numerical and Material Recording Clerks

44   Other Clerical Support Workers

50   ISCO 1-digit: Services and Sales Workers

51   Personal Services Workers

52   Sales Workers

53   Personal Care Workers

54   Protective Services Workers

60   ISCO 1-digit: Skilled Agricultural, Forestry and Fishery Workers

61   Market-oriented Skilled Agricultural Workers

62   Market-oriented Skilled Forestry, Fishery and Hunting Workers

63   Subsistence Farmers, Fishers, Hunters and Gatherers

70   ISCO 1-digit: Craft and Related Trades Workers

71   Building and Related Trades Workers (excluding Electricians)

72   Metal, Machinery and Related Trades Workers

73   Handicraft and Printing Workers

74   Electrical and Electronics Trades Workers

75   Food Processing, Woodworking, Garment and Other Craft and Related Trades Workers

80   ISCO 1-digit: Plant and Machine Operators and Assemblers

81   Stationary Plant and Machine Operators

82   Assemblers

83   Drivers and Mobile Plant Operators

90   ISCO 1-digit: Elementary Occupations

91   Cleaners and Helpers

92   Agricultural, Forestry and Fishery Labourers

93   Labourers in Mining, Construction, Manufacturing and Transport

94   Food Preparation Assistants

95   Street and Related Sales and Services Workers

96   Refuse Workers and Other Elementary Workers

99   ISCO could not be applied to response given

Note:

Verbatim recorded answers standardized according to 4-digit ISCO08.

Source: https://www.ilo.org/public/english/bureau/stat/isco/isco08/index.htm

For data protection reasons all ISCO 4-digit codes have been aggregated to ISCO 2-digit codes. The corresponding variable with 3-digit ISCO codes is provided in the 'EVS 2017: Sensitive Data' (ZA7501) with restricted data access.

For data protection reasons the three categories 'armed forces' were combined into one category 0 "Armed Forces Occupations".

In case the verbatim recorded answer could not be clearly assigned to an ISCO code, other variables of occupational status could be considered: nr. of employees (v247); people supervised (v248, v248a); work for public/private employer (v249). If no ISCO code could be allocated even then, the case was coded as 99: "ISCO could not be applied to the given answer".

Austria, Azerbaijan, Denmark, Finland, Great Britain, Hungary, Italy, Latvia, Lithuania, Sweden, Switzerland:
For data protection reasons some respondents with very specific occupations have been recoded to -2 'no answer'.

Montenegro, North Macedonia, Ukraine: Some respondents has valid ISCO codes although didn't answer v244 and v245 (n=1, 1, 15 respectively).

v246_SIOPS - kind of job respondent - SIOPS08 code (Q84a)

OCCUPATIONAL STATUS RESPONDENT: SIOPS (CONSTRUCTED VARIABLE)

v246_egp - kind of job respondent - EGP11 (Q84a)

OCCUPATIONAL STATUS RESPONDENT: EGP (CONSTRUCTED VARIABLE)

EGP class scheme (Erikson/Goldthorpe/Portocarero, 1979)

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-3  not applicable

-2  no answer

-1  don't know

1  I :Higher Controllers

2  II :Lower Controllers

3  IIIa:Routine Non-manual

4  IIIb:Lower Sales-Service

5  IVa: Self-employed with employees

6  IVb: self-employed with no employees

7  V :Manual Supervisors

8  VI :Skilled Worker

9  VIIa:Unskilled Worker

10  VIIb:Farm Labor

11  IVc:Self-employed Farmer

Note:

Source classification: Ganzeboom, H. B. G. & Treiman, D. J. (1996), Internationally Comparable Measures of Occupational Status for the 1988 International Standard Classification of Occupations. Social Science Research, 25, 201-239.

Source syntax to compute classification: Ganzeboom, Harry B.G.; Treiman, Donald J., "International Stratification and Mobility File: Conversion Tools." Amsterdam: Department of Social Research Methodology, http://www.harryganzeboom.nl/ismf/index.htm. Date last revision: 5 October 2019.

v249 - employment sector you work/-ed for (Q87)

Q87

<( Q82=1 || Q82=2 || Q83=1 ) ASK Q87>

Do/did you work for?

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  government or public institution

2  private business or industry

3  private non-profit organization

In first versions of the Master questionnaire, Q87 was only formulated in present tense, although the interviewer instruction specifies that currently employed (Q82=1 or 2) or persons who were not self-employed in their last job (Q83=1) should be asked. This could explain some data inconsistencies in few countries and the high number of cases coded as -2 'no answer'.

Romania: Different filter implementation: also self-employed were asked v249, only respondents, who never had a paid job (v245=6, DK, NA) skipped the question.

Serbia:  Some respondents (n=64) stated their working sector, although they are/were self-employed and should not have been asked v249.

v250 - partner/spouse born in [country] (Q88)

Q88

<( Q72=1 || Q72=2 || Q74=1 ) ASK Q88>

Was your partner/spouse born in ... [COUNTRY]?

<( Q88=1 || Q88=8 || Q88=9 ) GOTO Q89>

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   yes

2   no

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer‘.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

Note:

Verbatim recorded answers standardized according to ISO 3166-1 alpha-numeric codes (2-letter code). Former countries are coded under ISO 3166-3 (4-letter code).

For data protection reasons, few single countries have been aggregated to coarser sub-regions according to the geographic regions of the M49 standard (Source: https://unstats.un.org/unsd/methodology/m49/).

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

Note:

Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable,

see v252_cs. For the mapping between source and target variable, see EVS 2017 Variable Report, App. A3 and A4.

Switzerland: Due to an error in the German WEB questionnaire, the question text is ambiguous: It uses the term "Ihre höchste abgeschlossene Ausbildung", which literally means "your education". On the other hand, the respondent may have recognised from the context that it refers to his/her partner/spouse. Flag variable f252_edulvlb_CH indicates the wording version the respondent got.

Albania: two respondents who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

f252_edulvlb_CH - CH MODIFIED QUESTION (WEB_GERMAN): educational level spouse/partner: ESS-edulvlb coding (Q89)

Flag variable related to a question wording problem in Switzerland for v252:

Due to an error in the German WEB questionnaire, the question text is ambiguous: It uses the term "Ihre höchste abgeschlossene Ausbildung", which literally means "your education". On the other hand, the respondent may have recognised from the context that it refers to his/her partner/spouse. This variable indicates the wording version the respondent got.

Note:

Harmonized variable: highest educational level achieved using the ESS-edulvlb classification scheme. For country-specific variable, see v252_cs. For the mapping between source and target variable, see EVS 2017 Variable Report, App. A3 and A4.

Albania: two respondents who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed,

divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

v252_edulvlb_1 - educational level spouse/partner: ESS-edulvlb coding one digit (Q89)

Note:

Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v252_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer‘.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

v252_ISCED_2 - educational level spouse/partner: ISCED-code two digit (Q89)

EDUCATIONAL LEVEL SPOUSE/PARTNER: ISCED 2011 code 2-digit (HARMONIZED VARIABLE, Version A)

Source variable: v252_cs, v252_edulvlb

[Q89 What is the highest educational level that your spouse or partner has attained?]

Note:

Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Since the 2nd and 3rd digits of ISCED are not hierarchical but cross-cutting, we provide two versions of ISCED 2-digit:

- v252_ISCED_2 (Version A) is obtained by cutting the 3rd digit from the 3-digit variables (v252_ISCED_3) and indicates the ISCED level plus the information about the vocational/general orientation of the program.

- v252_ISCED_2b (Version B) is obtained by cutting the 2nd digit from the 3-digit variable(v252_ISCED_3) and indicates the ISCED level plus whether there is access to the next higher level or not.

For country-specific variable, see v252_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for

this partner.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). v252_EISCED - educational level spouse/partner: ES-ISCED coding (Q89)

EDUCATIONAL LEVEL SPOUSE/PARTNER: ES-ISCED code  (HARMONIZED VARIABLE)

Source variable: v252_cs, v252_edulvlb

[Q89 What is the highest educational level that your spouse or partner has attained?]

-9   no follow-up

-8   follow up non response

-7   matrix not applied

-6   survey break-off

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   No formal or less than primary education

1   I - Primary education

2   II - Lower secondary (including vocational training that is not considered as completion of upper secondary education)

3   IIIb - Upper secondary without access to higher education

4   IIIa - Upper secondary with access to higher education

5   IV - Post-secondary/advanced vocational education below bachelor's degree level

6   V1 - Bachelor's level

7   V2 - Master's and higher level

6666   other

Note:

Harmonized variable: highest educational level achieved using the ES-ISCED classification scheme. For country-specific variable, see v252_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the

other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

Note:

Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific educational categories. Variable has been harmonized according to ESS-eduvlbl. For the mapping between source and target variable, see App. A3.

Germany: Educational level is measured by three questions in the field questionnaire: 1. highest school leaving certificate, 2. highest university leaving certificate, 3. highest vocational training certificate. Country-specific categories and their mapping in the harmonized educational level categories are available in App. 3.

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

v252_cs_DE1 - DE COUNTRY-SPECIFIC: educational level spouse/partner (Q89), SCHOOL

Germany: COUNTRY-SPECIFIC educational level spouse/partner (Q89), SCHOOL

Q89

<SHOW CARD 89>

What is the highest school leaving certificate that your spouse or partner has attained?

27608   Qualification of a vocational full-time school

27609   Occupational qualification (second cycle) for students with occupational qualification or with university entrace qualif

27610   Master craftsmen's or Technician's qualification (or equal)

27611   other, please specify: (write in)

Note:

In Germany educational level is measured by three questions in the field questionnaire, which cannot be compiled in the general country-specific variable v252_CS: 1. highest school leaving certificate (v252_CS_DE1), 2. highest university leaving certificate (v252_CS_DE2), 3. highest vocational training certificate (v252_CS_DE3). These variables have been harmonized according to ESS-eduvlbl. For the mapping of source and target variable, see EVS 2017 Variable Report, App. A3.

v252_cs_GB1 - GB COUNTRY-SPECIFIC:educational level spouse/partner: Up to 2 or more A-levels or equivalent (Q89a)

Great Britain: COUNTRY-SPECIFIC educational level spouse/partner: Up to 2 or more A-levels or equivalent (Q89a)

6   homemaker not otherwise employed

7   student

8   unemployed

9   disabled

10   other

The routing in the Master Questionnaire treats the category "other" as not in paid employment. Even though there are cases in this category that are in fact in paid employment (e.g. paid parental leave). In this case, it is not clear whether the answers to the following questions refer to the current job of the individual or to a former one.

Germany: Category 04 means "federal voluntary service", not "military service", because there is no compulsory military service any longer.

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer‘.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236 (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

61  Market-oriented Skilled Agricultural Workers

62  Market-oriented Skilled Forestry, Fishery and Hunting Workers

63  Subsistence Farmers, Fishers, Hunters and Gatherers

70  ISCO 1-digit: Craft and Related Trades Workers

71  Building and Related Trades Workers (excluding Electricians)

72  Metal, Machinery and Related Trades Workers

73  Handicraft and Printing Workers

74  Electrical and Electronics Trades Workers

75  Food Processing, Woodworking, Garment and Other Craft and Related Trades Workers

80  ISCO 1-digit: Plant and Machine Operators and Assemblers

81  Stationary Plant and Machine Operators

82  Assemblers

83  Drivers and Mobile Plant Operators

90  ISCO 1-digit: Elementary Occupations

91  Cleaners and Helpers

92  Agricultural, Forestry and Fishery Labourers

93  Labourers in Mining, Construction, Manufacturing and Transport

94  Food Preparation Assistants

95  Street and Related Sales and Services Workers

96  Refuse Workers and Other Elementary Workers

99  ISCO could not be applied to response given

Note:

Verbatim recorded answers standardized according to 4-digit ISCO08.Source:

https://www.ilo.org/public/english/bureau/stat/isco/isco08/index.htm

For data protection reasons all ISCO 4-digit codes at have been aggregated to ISCO 2-digit codes. The corresponding variable with 3-digit ISCO codes is provided in the 'EVS 2017: Sensitive Data' (ZA7501) with restricted data access.

For data protection reasons the three categories 'armed forces' were combined into one category 0 "Armed Forces Occupations".

Austria, Azerbaijan, Czechia,  Denmark, Finland, France, Great Britain, Hungary, Iceland, Italy, Norway, Serbia, Switzerland:
 For data protection reasons some respondents with very specific occupations have been recoded to -2 'no answer'.

In case the verbatim recorded answer could not be clearly assigned to an ISCO code, other variables of occupational status could be considered: nr. of employees (v247); people supervised (v248, v248a); work for public/private employer (v249). If no ISCO code could be allocated even then, the case was coded as 99: "ISCO could not be applied to the given answer".

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped

all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer‘.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

North Macedonia: Due to difficulties of interviewers to follow filter instructions (PAPI), and due to cultural-related distrust, some filter inconsistencies did occur in variables regarding partnership (v236, v237) and consequently in variables regarding spouse/partner (v250-v258): 149 widowed, 12 divorced, 5 separated, 116 never married, and 4 'na' in v234 (total n=183) have not answered v236 (= -2 'na'). Consequently, they should have skip questions related to spouse/partner (v250 to v258); however, some of them have valid answers.

v255_SIOPS - kind of job spouse/partner -SIOPS08 code (Q92a)

v255_ESeC - kind of job spouse/partner - ESEC08 code (Q92a)

OCCUPATIONAL STATUS SPOUSE/PARTNER: ESeC (CONSTRUCTED VARIABLE)

European Socio-economic Classification (Harrison et al., 2006)

-10   multiple answers (Mail)

-9   no follow-up

-8   follow-up non response

-7   matrix not applied

-6   na (survey beak-off)

-3   not applicable

-2   no answer

-1   dont know

1   Large employers, higher mgrs/professionals

2   Lower mgrs/professionals, higher supervisory/technicians

3   Intermediate occupations

4   Small employers and self-employed (non-agriculture)

5   Small employers and self-employed (agriculture)

6   Lower supervisors and technicians

7   Lower sales and service

8   Lower technical

9   Routine

99   ISCO could not be applied to response given

Note:

Source classification: Harrison, E., & Rose, D. (2006). The european socio-economic classification (ESeC) user guide. Colchester: Institute for Social and Economic Research, University of Essex.

Source syntax to compute classification: https://www.iser.essex.ac.uk/archives/esec/matrices-and-syntax Date: 27-09-2006 (last update syntax).

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner

(v250-v258). However filter has not been followed in all cases. Further there are valid answers from some
widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked
v236 (n=165).

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ‚no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some

widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

3  25 or more

Albania:  two respondents  who are not living with a spouse or partner answered all questions related to spouse/partner (v250 to v258) although they should not have been asked . Both cases are in a steady relationship (v257=1) and might answer the question for this partner.

Lithuania: Due to a printing error in the FQ the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=408).

Estonia: Due to an error in field questionnaire, the filter used for v236 and v237 differs from the master questionnaire. Widowed, divorced and separated respondents were not asked about their current cohabitation or relationship. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258 (n=445).

Great Britain: Due to an error in the implementation of field questionnaire in CAPI, the filter used for v236 and v237 differs from the master questionnaire. All married (834 cases), or in registered partnership (12 cases) respondents have answered the question (v236) although shouldn't. Consequently all married not living with partner (n=63) answered v237. Answers have not been cleaned. On the other hand, respndents who were never married or in registered partnership (v234=6, n=478) skipped v236 and v237, although should have been asked the question. Consequently, they also skipped all spouse/partner related questions and are coded with "NAP" in v250 to v258.They have been coded 9 ,no answer'.

Hungary: Due to a translation mistake respondents living with a partner (v236=1) have not been asked  all the questions regarding spouse/partner (n=156). Consequently only married or living in registered partnership have valid asnwers in v250-v258.

Serbia: The contradictory filter instructions in v234, v236  (detailed description in v236) lead to some filter inconsistencies in all variables related to spouse/partner (v250-v258). According to filter applied in FQ only respondents married or in registered partnership and 35 never married but living with partner (summ =806) should have answered questions related to spouse/partner (v250-v258). However filter has not been followed in all cases. Further there are valid answers from some widowed/divorced/separated and respondents never married and never in registered partnertnership/dk/na, who haven't been asked v236 (n=165).

v261 - households total net income (Q98) (standardized)

Q98

<SHOWCARD 98>

Here is a list of incomes and we would like to know in what group your household is, counting all wages, salaries, pensions and other incomes that come in.  Just give the letter of the group your household falls into, after taxes and other deductions.

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   A - 1st decile

2   B - 2nd decile

3   C - 3rd decile

4   D - 4th decile

5   E - 5th decile

6   F - 6th decile

7   G - 7th decile

8   H - 8th decile

9   I - 9th decile

10   J - 10th decile

Note:

Deciles of the net household income distribution were used [Approximate WEEKLY, Approximate MONTHLY, Approximate ANNUAL].

See EVS 2017 Variable Report Appendix B: Income for country-specific intervalls and further information on country level.

Portugal: Due to a print error in the show card, the variable provided could not be integrated. All cases are coded 5 'other missing'.

The original variable will be provided in the ADD ON dataset - Additional country-specific variables.

v261_ppp - household monthly net income (x1000), corrected for ppp in euros (Q98)

Monthly household income in Euros (x1000) for purchasing power parity (HARMONIZED VARIABLE)

Source variable: v261

For each country not adopting the Euro as currency, the national currency is first converted into Dollars and then into Euros. This allowed retrieving the exchange rate for most of the countries from the same source, namely the IMF Global Economic Monitor (GEM). This source offered the exchange rate from national currency to dollars for all EVS countries, except for Serbia and Bosnia and Herzegovina. The IMF GEM also allowed us to convert dollars to euro, while the exchange rates of Serbia and Bosnia and Herzegovina come from the World Bank.

Once calculated the conversion rate national country/Euro, the income categories have been corrected for the purchasing power parity (PPP). PPP is derived from the IMF World Economic Outlook Database (October 2019 Edition). For Montenegro, the World Bank statistics 2019 were used. The year(s) in which the data were collected, form(s) the basis for the calculation of the PPP rates. For all countries, the mean exchange rate was calculated over the survey period.

A linear income variable has been constructed taking the mid-points of the country-specific categories corrected for PPP. For the first category, the mid-point is the upper bound minus half the range of the second category, e.g., if (1) <500 Euro and (2) 500-800 Euro, then the mid-point of the first category is: 500-(800-500)/2=350 Euro. For the mid-point of the lastest category, a same range for the last and the penultimate interval was assumed, e.g., if (one but last category) 7.500-10.000 Euro and (last category) >10.000 Euro, then the mid-point of the last category will be: 10.000+(2.500/2)=11.250 Euro. The mid-points have been finally divided by 1000.

v261_r - household total net income (Q98) (income level)

HOUSEHOLD TOTAL NET INCOME - income level, 3-cat. (HARMONIZED VARIABLE)

Source variable: v261

[Q98 Here is a list of incomes and we would like to know in what group your household is, counting all wages, salaries, pensions and other incomes that come in.  Just give the letter of the group your household falls into, after taxes and other deductions.]

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  Low

2  Middle

3  High

Note:

The income variable has been recoded for each country according to its distribution into three categories, each containing approximately one-third of the country's sample. For detailed information, see EVS 2017 Variable Report App. B1: Mapping of income deciles into income terciles.

Portugal: Due to a print error in the show card, the source variable provided could not be integrated and thus the income level could not be computed. All cases are coded 5 'other missing'.

v262_ISCED_3 - educational level father: ISCED-code three digit (Q99)

EDUCATIONAL LEVEL FATHER: ISCED 2011 code 3-digit (HARMONIZED VARIABLE)

Source variable: v262_cs, v262_edulvlb

[Q99 What is the highest educational level that your father has attained?]

-9  no follow-up

-8  follow up non response

-7  matrix not applied

-6  survey break-off

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

0   Less than primary

100  Primary

244  General lower secondary  with direct access to upper secondary

253  Vocational lower secondary  without direct access to upper secondary

254  Vocational lower secondary  with direct access to upper secondary

343  General upper secondary  without direct access to first tertiary programmes

344  General upper secondary  with direct access to first tertiary programmes

353  Vocational upper secondary  without direct access to first tertiary programmes

354  Vocational upper secondary  with direct access to first tertiary programmes

444  General post-secondary non-tertiary  with direct access to first tertiary programmes

453  Vocational post-secondary non-tertiary  without direct access to first tertiary programmes

454  Vocational post-secondary non-tertiary  with direct access to first tertiary programmes

540  General short-cycle tertiary

550  Vocational short-cycle tertiary

640  Academic Bachelor's or equivalent level

650  Professional Bachelor's or equivalent level

740  Academic Master's or equivalent level

750  Professional Master's or equivalent level

800  Doctoral or equivalent level

6666  other

Note:

Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. For country-specific variable, see v262_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v262_ISCED_2 - educational level father: ISCED-code two digit (Q99)

EDUCATIONAL LEVEL FATHER: ISCED 2011 code 2-digit (HARMONIZED VARIABLE, Version A)

Source variable: v262_cs, v262_edulvlb

[Q99 What is the highest educational level that your father has attained?]

-9   no follow-up

-8   follow up non response

-7   matrix not applied

65   Bachelor's or equivalent level, professional

74   Master's or equivalent level, academic

75   Master's or equivalent level, professional

80   Doctoral or equivalent level

6666   other

Note:

Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Since the 2nd and 3rd digits of ISCED are not hierarchical but cross-cutting, we provide two versions of ISCED 2-digit:

- v262_ISCED_2 (Version A) is obtained by cutting the 3rd digit from the 3-digit variables (v262_ISCED_3) and indicates the ISCED level plus the information about the vocational/general orientation of the program.

- v262_ISCED_2b (Version B) is obtained by cutting the 2nd digit from the 3-digit variable(v262_ISCED_3) and indicates the ISCED level plus whether there is access to the next higher level or not.

For country-specific variable, see v262_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v262_ISCED_2b - educational level father: ISCED-code two digit, second option (Q99)

EDUCATIONAL LEVEL FATHER: ISCED 2011 code 2-digit (HARMONIZED VARIABLE, Version B)

Source variable: v262_cs, v262_edulvlb

[Q99 What is the highest educational level that your father has attained?]

v262_EISCED - educational level father: ES-ISCED coding (Q99)

EDUCATIONAL LEVEL FATHER: ES-ISCED code  (HARMONIZED VARIABLE)

Source variable: v262_cs, v262_edulvlb

[Q99 What is the highest educational level that your father has attained?]

-9   no follow-up

-8   follow up non response

-7   matrix not applied

-6   survey break-off

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   No formal or less than primary education

1   I - Primary education

2   II - Lower secondary (including vocational training that is not considered as completion of upper secondary education)

3   IIIb - Upper secondary without access to higher education

4   IIIa - Upper secondary with access to higher education

5   IV - Post-secondary/advanced vocational education below bachelor's degree level

6   V1 - Bachelor's level

7   V2 - Master's and higher level

6666   other

Note:

Harmonized variable: highest educational level achieved using the ES-ISCED classification scheme. For country-specific variable, see v262_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v262_ISCED97 - educational level father: ISCED97-code one digit (Q99)

EDUCATIONAL LEVEL FATHER: ISCED97-CODE 1 DIGIT (HARMONIZED VARIABLE)

Source variable: v262_cs, v262_edulvlb

[Q99 What is the highest educational level that your father has attained?]

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  don't know

0  Pre-primary education or none education

1  Primary education or first stage of basic education

2  Lower secondary or second stage of basic education

3  (Upper) secondary education

4  Post-secondary non-tertiary education

5  First stage of tertiary education

6  Second stage of tertiary education

Note:

Harmonized variable: highest educational level achieved using the ISCED 1997 classification scheme. For country-specific variable, see v262_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v262_8cat - educational level father: 8 categories (Q99)

EDUCATIONAL LEVEL FATHER: 8 CATEGORIES (HARMONIZED VARIABLE)

Source variable: v262_cs, v262_edulvlb

[Q99 What is the highest educational level that your father has attained?]

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  don't know

1  Inadequately completed elementary education

2  Completed (compulsory) elementary education

3  Incomplete secondary school: technical/vocational type

4  Complete secondary school: technical/vocational type/secondary

5  Incomplete secondary: university-preparatory type/secondary

6  Complete secondary: university-preparatory type/full secondary

7  Some university without degree/higher education - lower-level tertiary

8  University with degree/higher education - upper-level tertiary

Note:

Harmonized variable: highest educational level achieved using the EVS/WVS agreed classification for the trend files. For country-specific variable, see v262_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v262_r - educational level father: recoded (Q99)

EDUCATIONAL LEVEL FATHER: 3 categories (HARMONIZED VARIABLE)

Source variable: v262_cs

[Q99 What is the highest educational level that your father has attained?]

Q99

<SHOWCARD 99>

What is the highest educational level that your father has attained?:

<'COMPLETED' MEANS DIPLOMA/CERTIFICATE>

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  lower

2  medium

3  higher

66  other

Note:

Harmonized variable: highest educational level achieved – based on the ESS-edulvlb classification scheme. For country-specific variable, see v262_cs. For the mapping between source and target variable, see App. A3 and A4.

Note:

Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific educational categories.

Variable has been harmonized according to ESS-eduvlbl. For the mapping between source and target variable, see App. A3.

Germany: Educational level is measured by three questions in the field questionnaire: 1. highest school leaving certificate, 2. highest university leaving certificate, 3. highest vocational training certificate. Country-specific categories and their mapping in the harmonized educational level categories are available in App. 3.

v262_cs_DE1 - DE COUNTRY-SPECIFIC: educational level father (Q99), SCHOOL

Germany: COUNTRY-SPECIFIC educational level father (Q99), SCHOOL

Q99

<SHOW CARD 99>

What is the highest school leaving certificate that your father has attained?

<'ATTAINED' MEANS DIPLOMA/CERTIFICATE>

27602  Pre-vocational training, qualification of short health sector programmes

27603  Vocational training with diploma, but no Dual System (second cycle)

27604  Medical assistant, nurse (qualification of health sector schools (2 and 3 years)

27605  Qualification of civil servants for the medium level

27606  Qualification in the Dual System (second cycle), industrial or agricultural sector

27607  Qualification in the Dual System (second cycle), sales sector

27608  Qualification of a vocational full-time school

27609  Occupational qualification (second cycle) for students with occupational qualification or with university entrace qualif

27610  Master craftsmen's or Technician's qualification (or equal)

27611  other, please specify: (write in)

Note:

In Germany educational level is measured by three questions in the field questionnaire, which cannot be compiled in the general country-specific variable v262_CS: 1. highest school leaving certificate (v262_CS_DE1), 2. highest university leaving certificate (v262_CS_DE2), 3. highest vocational training certificate (v262_CS_DE3). These variables have been harmonized according to ESS-eduvlbl. For the mapping of source and target variable, see EVS 2017 Variable Report, App. A3.

v262_cs_GB1 - GB COUNTRY-SPECIFIC:educational level father: Up to 2 or more A-levels or equivalent (Q99a)

Great Britain: COUNTRY-SPECIFIC educational level father: Up to 2 or more A-levels or equivalent (Q99a)

Q99a

v263_ISCED_2 - educational level mother: ISCED-code two digit (Q100)

EDUCATIONAL LEVEL MOTHER: ISCED 2011 code 2-digit (HARMONIZED VARIABLE,Version A)

Source variable: v263_cs, v263_edulvlb

[Q100 What is the highest educational level that your mother has attained?]

-9   no follow-up

-8   follow up non response

-7   matrix not applied

-6   survey break-off

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

0   Pre-primary education

10   Primary education

24   Lower secondary general education

25   Lower secondary vocational education

34   Upper secondary general education

35   Upper secondary vocational education

44   Post-secondary non-tertiary general education

45   Post-secondary non-tertiary vocational education

54   Short-cycle tertiary general education

55   Short-cycle tertiary vocational education

64   Bachelor's or equivalent level, academic

65   Bachelor's or equivalent level, professional

74   Master's or equivalent level, academic

75   Master's or equivalent level, professional

80   Doctoral or equivalent level

6666   other

Note:

Harmonized variable: highest educational level achieved using the ISCED 2011 classification scheme. Since the 2nd and 3rd digits of ISCED are not hierarchical but cross-cutting, we provide two versions of ISCED 2-digit:

- v263_ISCED_2 (Version A) is obtained by cutting the 3rd digit from the 3-digit variables (v263_ISCED_3) and indicates the ISCED level plus the information about the vocational/general orientation of the program.

- v263_ISCED_2b (Version B) is obtained by cutting the 2nd digit from the 3-digit variable(v263_ISCED_3) and indicates the ISCED level plus whether there is access to the next higher level or not.

For country-specific variable, see v263_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v263_ISCED_2b - educational level mother: ISCED-code two digit, second option (Q100)

EDUCATIONAL LEVEL MOTHER: ISCED 2011 code 2-digit (HARMONIZED VARIABLE,Version A)

Source variable: v263_cs, v263_edulvlb

[Q100 What is the highest educational level that your mother has attained?]

v263_ISCED97 - educational level mother: ISCED97-code one digit (Q99)

EDUCATIONAL LEVEL MOTHER: ISCED97-CODE 1 DIGIT (HARMONIZED VARIABLE)

Source variable: v263_cs, v263_edulvlb

[Q100 What is the highest educational level that your mother has attained?]

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  don't know

0  Pre-primary education or none education

1  Primary education or first stage of basic education

2  Lower secondary or second stage of basic education

3  (Upper) secondary education

4  Post-secondary non-tertiary education

5  First stage of tertiary education

6  Second stage of tertiary education

Note:

Harmonized variable: highest educational level achieved using the ISCED 1997 classification scheme. For country-specific variable, see v263_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v263_8cat - educational level mother: 8 categories (Q100)

EDUCATIONAL LEVEL MOTHER: 8 CATEGORIES (HARMONIZED VARIABLE)

Source variable: v263_cs, v263_edulvlb

[Q100 What is the highest educational level that your mother has attained?]

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   don't know

1   Inadequately completed elementary education

2   Completed (compulsory) elementary education

3   Incomplete secondary school: technical/vocational type

4   Complete secondary school: technical/vocational type/secondary

5   Incomplete secondary: university-preparatory type/secondary

6   Complete secondary: university-preparatory type/full secondary

7   Some university without degree/higher education - lower-level tertiary

8   University with degree/higher education - upper-level tertiary

Note:

Harmonized variable: highest educational level achieved using the EVS/WVS agreed classification for the trend files. For country-specific variable, see v263_cs. For the mapping between variables, see EVS 2017 Variable Report Appendix A3: Educational level and Appendix A4: Variables generated on the basis of Educational level.

v263_r - educational level mother: recoded (Q100)

EDUCATIONAL LEVEL MOTHER: 3 categories (HARMONIZED VARIABLE)

Source variable: v263_cs

[Q100 What is the highest educational level that your mother has attained?]

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

1   lower

2   medium

3   higher

66   other

Note:

Harmonized variable: highest educational level achieved – based on the ESS-edulvlb classification scheme. For country-specific variable, see v263_cs. For the mapping between source and target variable, see App. A3 and A4.

v263_cs - educational level mother: country-specific, ISO 3166-1 (Q100)

Q100

What is the highest educational level that your mother has attained?:

<'COMPLETED' MEANS DIPLOMA/CERTIFICATE>

-10   multiple answers Mail

-9   no follow-up

-8   follow-up non response

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

801   AL: Without school

802   AL: Primary education

803   AL: Lower secondary (Leaving certificate)

804   AL: Upper secondary general (Maturity diploma)

805   AL: Upper secondary vocational (2 years, certificate of high technical or vocational education)

806   AL: Upper secondary vocational (over 2 years, Maturity diplome)

807   AL: Post-secondary non tertiary

808   AL: University diploma/Bachelor

809   AL: Vocational/Professional Master

810   AL: Post-University

811   AL: Master of Arts

812   AL: Master of Science

813   AL: Long term specialization

814   AL: Doctoral Degree

877   AL: not applicable

888   AL: don't know (spontaneous)

899   AL: no answer (spontaneous)

3101   AZ: None

3102   AZ: Primary education (1-4 years)

3103   AZ: Incomplete general secondary (5-8 grades)

3104   AZ: General secondary education (9 grades)

3105   AZ: Complete secondary education (11 grades)

3106   AZ: Primary vocational-professional education (Vocational school/lyceum) (1-3 years)

3107   AZ: Secondary special education (Technical school/College) (2-4 years)

3108   AZ: Bachelor degree (4 years)

3109   AZ: Master degree (2 years)

3110   AZ: Science degree (former Aspirantura/PhD): Doctor of Philosophy, Doctor of Science

3188   AZ: don't know (spontaneous)

3199   AZ: no answer (spontaneous)

4001   AT: Not completed

4002   AT: Completed primary education

4003   AT: Completed Lower Secondary Education, New Secundary School

4004   AT: Completed Polytechnic School, or one-year Middle School

4005   AT: Completed Academic Secondary School (AHS), elementary level

4006   AT: Completed apprenticeship (final apprenticeship examination)

4007   AT: Completed Vocational Middle School (at least 2 years, e.g. commercial school, professional school)

4008   AT: Completed Higher School Certificate (matriculation, general qualification for university entrance)

4009   AT: Completed degree in health or nursing care

4010   AT: Completed Higher School Certificate in Vocational Higher School

4011   AT: Completed advanced vocational training

4012   AT: Completed pedagoical/educational/medical degree

4013   AT: Completed Bachelor's degree at a university of applied sciences

4014   AT: Completed Bachelor's degree at a university

4015   AT: Completed Master's degree at a university of applied sciences

4016   AT: Completed Master's degree at a university of applied sciences

4017   AT: Completed post-graduate university courses (e.g. MBA)

4018   AT: Completed doctorate/PhD

4019   AT: other

5101   AM: Never went to school

5102   AM: Less than 4 years of education

5103   AM: 4 years of primary education

5104   AM: Certificate of lower secondary/ basic secondary education, 9 years

5105   AM: Certificate of initial vocational education after lower /basic education

5106   AM: Advanced vocational education after lower /basic education

5107   AM: Certificate of upper secondary education, 12 years

5108   AM: Certificate of initial vocational training after upper secondary education

5109   AM: Advanced vocational education after upper secondary education

5110   AM: Bachelor degree 4 years

5111   AM: Specialist degree

5112   AM: Master degree 2 years

5113   AM: Phd and habilitation

7001   BA: No school (up to three grades of elementary school)

7002   BA: Unfinished elementary school (4 to 7 grades)

7003   BA: Completed elementary school

7004   BA: Secondary vocational school up to 1-2 years

7005   BA: Secondary vocational school up to 3 years

7006   BA: Technical and related secondary vocational schools up to 4 years or more

v266 - at age 14, occupational group of your parent (main earner) (Q103)

Q103

<SHOWCARD 103>

When you were 14, which of the following groups did your parent who was the main earner belong to?

-10  multiple answers Mail

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  professional and technical (for example: doctor, teacher, engineer, artist, accountant, nurse)

2  higher administrative (for example: banker, executive in big business, high government official, union official)

3  clerical (for example: secretary, clerk, office manager, civil servant, bookkeeper)

4  sales (for example: sales manager, shop owner, shop assistant, insurance agent, buyer)

5  service (for example: restaurant owner, police officer, waitress, barber, caretaker)

6  skilled worker (for example: foreman, motor mechanic, printer, seamstress, tool and die maker, electrician)

7  semi-skilled worker (for example: bricklayer, bus driver, cannery worker, carpenter, sheet metal worker, baker)

8  unskilled worker (for example: laborer, porter, unskilled factory worker, cleaner)

9  farm worker (for example: farm laborer, tractor driver)

10  farm proprietor, farm manager

66  does not apply to me (spontaneous)

Austria: Deviation in question design. Open questions in accordance with other questions on work and post-coded in ISCO 08. Recoded into answer categories of master questionnaire.

Hungary: Answer category "6/66 - does not apply to me (spontaneous)" was not implemented in the field questionnaire.

Modified answer category in MQ alert 05: Change of category 7/77 "Not applicable" into 6/66 "Does not apply to me (spontaneous)" to clarify, that no respondents were filtered out.

4   no

6   does not apply to me (spontaneous)

Hungary: Answer category "6/66 - does not apply to me (spontaneous)" was not implemented in the field questionnaire.

Modified answer category in MQ alert 05: Change of category 7/77 "Not applicable" into 6/66 "Does not apply to me (spontaneous)" to clarify, that no respondents were filtered out.

Belarus disagreed with the Russian Federation's translation of this item: 'Моим родителям (родителю) было трудно расставаться с вышедш строя вещами и приобретать взамен них новые' - as this translator places emphasis on emotional connection of the parents to the broken things, rather than on the economic incapacity to replace them.

UKZZ   UK - EXTRA-REGIO NUTS 1 - Extra-Regio NUTS 2

Note:

Alphanumeric NUTS-2 code (2016) or country-specific regional code resembling NUTS as much as possible (see EVS 2017 Variable

Report Appendix C: NUTS level 1-2-3).

For data protection reasons regional units on NUTS-3 level are not available in this dataset. The corresponding variables are provided

in the 'EVS 2017: Sensitive Data' (ZA7501) with restricted data access.

Germany: For data protection reasons regional units on NUTS-2 level are not available for Germany in this dataset.

Denmark: Variable generated from official register data;  no write-in question was included in the questionnaire.

Note:

Alphanumeric NUTS-1 code (2016) or country-specific regional code resembling NUTS as much as possible (see EVS 2017 Variable

Report, App C).

For data protection reasons regional units on NUTS-3 level are not available in this dataset. The corresponding variables are

provided in the 'EVS 2017: Sensitive Data' (ZA7501) with restricted data access.

v276_r - size of town where interview was conducted Q106 (5 categories)

SIZE OF TOWN. 5-categories (RECODED VARIABLE)

Source variable: v276 (not included for data protection reasons)

[Q106 Size of town]

-4   item not included

-3   not applicable

-2   no answer

-1   don't know

1   under 5000

2   5000-20000

3   20000-100000

4   100000-500000

5   500000 and more

Note:

For data protection reasons some categories have been aggregated into coarser population intervals. The variable with more detailed intervals (8-categories, see below) is provided in the 'EVS 2017: Sensitive Data' (ZA7501) with restricted data access.

Answer categories in Q106:

01 – under 2000

02 – 2 - 5.000

03 – 5 - 10.000

04 – 10 - 20.000

05 – 20 - 50.000

06 – 50 - 100.000

07 – 100 - 500.000

08 – 500.000 and more

Albania, Denmark and Lithuania: For data protection reasons the two lowest categories of the already reduced variable (v276_r) have been combined into category 2, beeing its label for these three countries 'under 20000'.

Germany: Size of municipality differs from coding advised by master questionnaire; category  3= 5000-20000; cat. 4 not used.

Slovakia: Size of municipality differs from coding advised by master questionnaire; it includes only 7 answer categories, being 7 "more than 100,000".

Great Britain, Netherlands: Data not yet available; all cases are coded as -4 'item not included".

Denmark: Data not available for CAWI/Mail sample (n=1666).

v279d_r - time of interview: duration in minutes (constructed) (Q109)

TIME OF INTERVIEW: DURATION IN MINUTES (CONSTRUCTED VARIABLE)

Source variables: v278a, v278b, v279a, v279b

[Q108 Time of interview: start and end hour and minute]

-9   no follow-up

-8   follow-up non response

-7   matrix not applied

-6   na (survey break-off)

-5   other missing

-4   item not included

-3   not applicable

-2   no answer

-1   dont know

Albania, Azerbaijan, Bosnia and Herzegovina, Croatia, Czechia, Denmark, Estonia, Finland, Georgia, Great Britain , Hungary, Iceland, Italy, Montenegro, Netherlands, North Macedonia, Norway, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland: Inconsistencies in time of interview (end before start) lead to negative duration (n=787).  These cases were recoded to -5 'other missing'.

Some cases have very extreamly short or long duration of the interview. This is probably due to technical problems or improper handling of the electronic supports by the interviewer.

mm_v279b_fu - MATRIX DESIGN EXPERIMENT: time of interview: end minute (Q108) (follow-up)

MATRIX DESIGN EXPERIMENT: time of interview for matrix design with a 2nd round survey
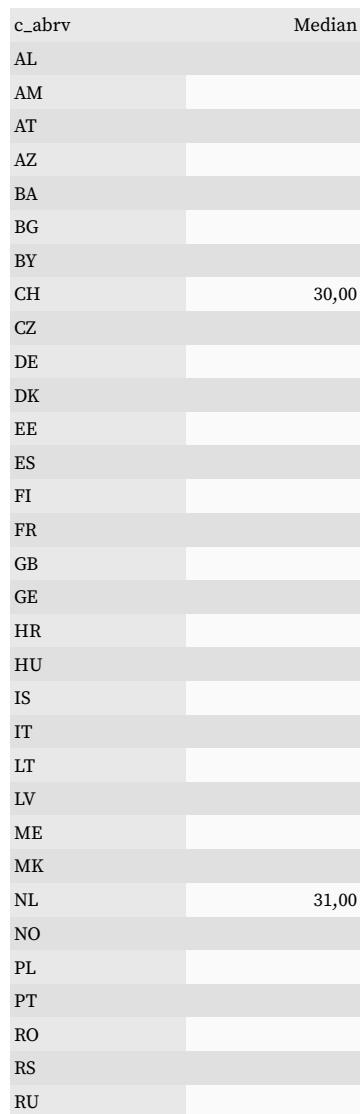

End minute

-9   no follow-up

-8   follow-up non response

-4   item not included

-3   not applicable

-2   no answer

According to the data, some interviews took place during the night (23:00 - 5:00), other ended before the start. These data errors are probably due to technical problems or improper handling of the electronic supports by the interviewer.

v280 - interest of respondent during interview (Q109)

Q109

During the interview the respondent was ...

in CAWI,MAIL:

How interested were you answering this survey?

-10  multiple answers (Mail)

-9  no follow-up

-8  follow-up non response

-5  other missing

-4  item not included

-3  not applicable

-2  no answer

-1  dont know

1  very interested

2  somewhat interested

3  not very interested

Bulgaria, Czechia, Germany, Iceland, Netherlands, Slovenia, Sweden, Switzerland: Additional answer category 'no answer'.

Finland: question not included in Mail survey;  cases are coded -2 'no answer'

Denmark: question not included

Estonia: question was only included for n=100 additional interviews.

v282 - interviewer number (Q111)

Q111

Interviewer number:

For self-administered modes, the variable is coded -4 'item not included'.

gweight - Calibration weights

CALIBRATION WEIGHTS - with educational level

These weights are meant to adjust some socio-demographic characteristics (age, sex, educational level and region of residence) in the sample population to the distribution of the target population. This weight is provided as a standard version for consistency with the previous EVS 2017 pre-releases.

The categories of the calibration variables employed in the procedure are coded in the corresponding "_weight" variables. For region, the NUTS2 regions were used (with some exceptions, where NUTS1 levels were used – or no regional variable was used due to data availability).

Note:

For mixed-mode countries, differences across modes have not been considered for computing the weights; i.e. all cases from each country have been weighted together.

Weight variables are not calculated for Matrix Design Data and are therefore not included in that datafile (ZA7502).

For details on the procedure to compute the weights and on the calibration variables used for each country, see European Values Study (EVS) 2017: Weighting Data.

gweight_no_edu - Calibration weights: without educational level

CALIBRATION WEIGHTS - without educational level

These weights are meant to adjust some socio-demographic characteristics (age, sex, and region of residence) in the sample population to the distribution of the target population. This weight is provided for researchers that reject the assumption of consistent measuring of educational level across countries (Ortmanns V. & Schneider S.L. 2016) and/or assume that non-responses have the same distribution across educational levels.

The categories of the calibration variables employed in the procedure are coded in the corresponding "_weight" variables. For region, the NUTS2 regions were used (with some exceptions, where NUTS1 levels were used – or no regional variable was used due to data availability).

Note:

For mixed-mode countries, differences across modes have not been considered for computing the weights; i.e. all cases from each country have been weighted together.

Weight variables are not calculated for Matrix Design Data and are therefore not included in that datafile (ZA7502).

For details on the procedure to compute the weights and on the calibration variables used for each country, see European Values Study (EVS) 2017: Weighting Data.

dweight - Design Weight

DESIGN WEIGHT

Design weights are meant to adjust the individual's probabilities of being included in the sample. The use of these weights accounts for the variation in individual selection probabilities in sample designs with multiple stages. In a complex sample design, an individual's selection probability is the product of each individual selection probability at every stage which, for sampling choices or chance and may differ for each respondent.

The design weights are computed as the inverse of the product of the selection probabilities at each sampling stage. They are then rescaled to the sample size so that their mean is 1, and their sum equals the sample size.

In a simple random sample, every respondent has the same selection probability (n/N) and hence the same design weight, namely, 1.

Note:

For details on the procedure to compute the weights and on the calibration variables used for each country, see European Values Study (EVS) 2017: Weighting Data.
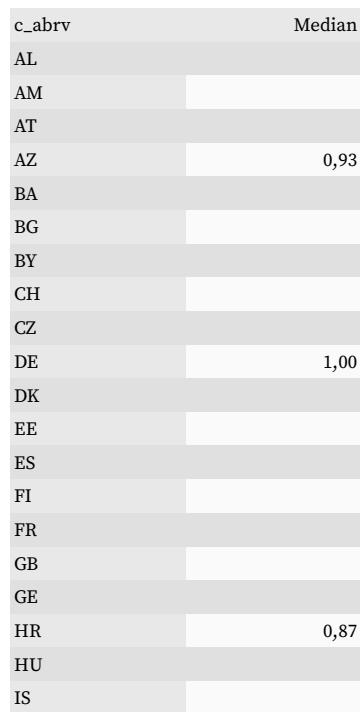

More detailed information on the sampling procedures used in the participating countries can be found in the EVS 2017 Method Report.

Design weights are provided for Azerbaijan, Croatia, Poland, Russia, Germany, and Ukraine.
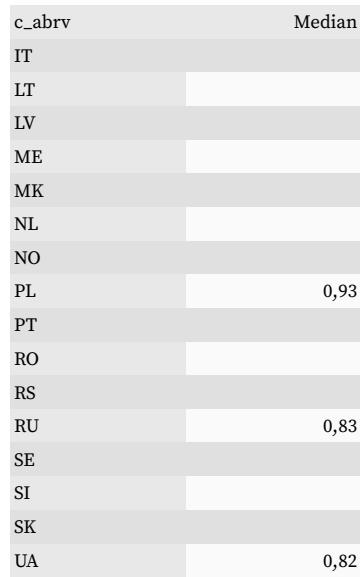

Weight variables are not calculated for Matrix Design Data and are therefore not included in that datafile (ZA7502).

pweight - Population size weight

POPULATION SIZE WEIGHTS

Population size weights are provided for rescaling the weights to a common  denominator across all countries and correspond to (target population size)/[(sample size)*10000]. These weights must be applied whenever one ought to analyze together different countries and avoids the overrepresentation of small countries when compared to bigger ones.

Note:

For mixed-mode countries, differences across modes have not been considered for computing the weights; i.e. all cases from each country have been weighted together.

Weight variables are not calculated for Matrix Design Data and are therefore not included in that datafile (ZA7502).

For details on the procedure to compute the weights and on the calibration variables used for each country, see European Values Study (EVS) 2017: Weighting Data.

age_r3_weight - CALIBRATION variable: Age in categories

CALIBRATION variable: Age in categories

It replicates age_r3 (unless country-specific deviations were needed, see Weighting EVS17 Data). It contains also imputed values for those respondents with missing values on the source variable (age_r3).

1  18-24

2  25-34

3  35-44

4  45-54

5  55-64

6  65-74

7  75+

Note:

Weight variables are not calculated for Matrix Design Data and are therefore not included in that datafile (ZA7502).

For details on the procedure to compute the weights and on the calibration variables used for each country, see European Values Study (EVS) 2017: Weighting Data.
